Arthur Brame, chief clerk for the last three years, who on Friday became the new manager of the Gettysburg Ice and Storage company with the retirement of Charles E. Dougherty.

R.C. STRESSED PRODUCTION IN '42 ACTIVITIES

With expanded programs of home service work, first aid training, production of clothing for civilians and members of the armed forces alike, the making of service kits for overseas-bound soldiers, the Junior Red Cross program and in regular chapter activities, the Adams county chapter of the Red Cross on Thursday closed a year that has had no parallel in its history since World War days.

Nearly 5,000 garments for civilian war refugees and for the men in the services already have been made and shipped; close to 500 service kits are finished; 444 adults and young people have been given training in home nursing; 434 home service cases have been handled with a large proportion of them involving men in the service or veterans of World War I; more than 800 first aid training certificates have been issued and the Junior Red Cross has completed the 100 per cent enrollment of all of the public and parochial schools of the county.

The newest project of the county chapter — the making of surgical dressings for Army and Navy use — has seen the completion of the initial quota of 9,000 and already started the second quota of 7,200.

The whole production program has been carried on by an estimated 700 to 800 volunteer women and girls. Other volunteer workers have handled the first aid, nurses' aide and home nursing programs.

SCHOOL PROJECT IN DENTISTRY IS DISCUSSED

The Adams county board of school directors at a meeting Friday evening in the office of the county superintendent of schools at the court house conducted a discussion relative to the board sponsoring a school dentistry project in upper Adams county, provided that service clubs provide the materials and the state pay \$2 per hour for work done by approved dentists up to 20 hours per month per dentist.

Discussion of the proposed project, never previously undertaken on a similar basis in this county, was led by Robert A. Bream, the assistant county superintendent of schools.

Board Favors Project
Members of the board expressed themselves as favoring this project to be developed on a county-wide basis, if possible, and asked Mr. Bream to secure more information relative to the possibility of other sections of the county participating. The matter was listed for further consideration and report at the next county board meeting.

With the new president R. M. Baugher of New Oxford presiding. (Please Turn to Page 2)

FLOODING OHIO BEATS AGAINST PORTSMOUTH

Portsmouth, O., Jan. 2 (AP)—The Ohio river hurled its full flood fury at this industrial city of 40,400 inhabitants today after driving 30,000 persons from their homes upstream and causing damage that may reach \$3,500,000.

Scores of families were removed from unprotected outlying communities.

The river, running out of its banks for 760 miles from East Liverpool, O., to below Evansville, Ind., was expected to crest here late tonight or Sunday at 61 feet, 11 above flood stage. It was at 60 today.

Three engineers were killed and four trainmen injured near New Philadelphia, O., in a collision of two freight trains which had been rerouted because of the flood.

Marooned workers prepared to return to war plants in East Liverpool, Wellsville, Steubenville, Martins Ferry, Bridgeport, Bellaire and Marietta, O., and Weirton, West Virginia, Wheeling, Moundsville, New Martinsville and Parkersburg, W. Va.

The Ohio's crest hit Point Pleasant, 90 miles north of here, last night, reaching 15 feet above flood level. Eight feet of water covered half the town, whose 3,500 population has been doubled by new war workers. A thousand were made homeless.

Huntington, W. Va., a city of 90,000 between here and Point Pleasant. (Please Turn to Page 2)

129 Couples Licensed In Year; 7 Divorces

For every couple that filed for divorce in Adams county last year, nine applied for marriage licenses here, the court house records showed today.

The number of marriage licenses issued here showed a marked decrease from the 1941 total but divorces dropped too.

In 1942 only 129 couples were issued wedding licenses as compared with 171 in 1941 and 227 in 1940. Fourteen couples opened divorce actions. One of those was later withdrawn and seven decrees were handed down by the court. One divorce action opened in 1941 was dismissed last year.

The 1942 divorce rate shows a marked decrease under that for the last few years here. In 1941, 21 couples sued for divorce, while in 1940 a five-year record was set by the 24 couples who...

Allies Strike Supplies In Tunisia BULLETIN

Moscow, Jan. 2 (AP)—The red flag of the Soviets flew over the ancient Russian town of Velikie Luki today to signal a major Russian victory on the central front.

(By The Associated Press)
Adolf Hitler's command acknowledged today that German troops had evacuated Elista, capital of the Kalmyck region in the Caucasus, but denied Soviet claims that the triumphant Red Armies had won the key Nazi stronghold of Velikie Luki 90 miles from the Latvian frontier.

Nazi headquarters said the garrison at Velikie Luki was holding out stubbornly yesterday, despite fierce Soviet attacks, and added: "Russian reports that Velikie Luki has been occupied already are therefore not correct."

It did not tell of the progress of the battle today. Russian headquarters declared the entire Nazi garrison was slain when it refused to surrender.

The Germans said Elista was evacuated after the town had been completely destroyed.

A grim blackout on Soviet war news first greeted German radio listeners this morning, and for several hours the populace was deprived of even its usual diet of sugar-coated propaganda served up by Dr. Goebbels' experts.

The Germans admitted on Thursday that Velikie Luki was virtually surrounded, with the Russians attacking "from all sides."

Soviet dispatches said the fall of (Please Turn to Page 2)

"E" Bond Purchase Limit Announced

Individuals now are permitted to purchase the limit of \$5,000 of series "E" War Savings Bonds, it was announced today by Edmund W. Thomas, chairman of the Victory Bond campaign in Adams county.

Mr. Thomas explained that both a husband and his wife may purchase the limit. The sum of \$3,750 invested now will return \$5,000 worth of "E" bonds in ten years.

The county's quota of bonds for January has been set at \$144,065. The chairman explained that the quota is determined by adding to the December quota a proportion of the value of the bonds that are purchased over the United States, broken down into county ratios.

Arendtsville Home Ec. Instructor Resigns

Mrs. LaRue Deardorff, head of the Home Economics department in the Arendtsville High School, tendered her resignation to the school board when it met Wednesday evening.

Mrs. Deardorff, who has taught at Arendtsville for a number of years, is planning to move to Hanover where she will assume management of her drug store.

No successor to Mrs. Deardorff has been chosen.

STOVES AVAILABLE

Philadelphia, Jan. 2 (AP)—Rationing regulations governing the sale of coal stoves have been liberalized to help save fuel oil in the least, the regional office of Price Administration announced today. "Anyone who will use the stove to replace an oil heater is eligible for a purchase certificate," state Director R. F. Ashenfelter said.

BERLIN REPORTS ARCTIC BATTLE

Berlin (From German Broadcasts, Jan. 2 (AP)—German warships and U-boats, combining in an attack on and beneath the Arctic ocean, damaged several Allied cruisers, sank a destroyer and torpedoed four merchantmen in a naval battle, a Nazi communique reported today.

The only ship listed as sunk was the destroyer and the communique said the German also lost a destroyer in the action which, it said, developed from the pursuit of a convoy.

The communique said the action occurred Dec. 31 near Bear Island, which lies about midway between Spitzbergen and the northern tip of Norway.

The German communique coincided in time and approximate location with the British Admiralty announcement Thursday that British warships had contacted German Naval units in northern waters early that morning and that the action was continuing.

(There was no confirmation of the German claims, however, which bore at least surface evidence of a covering a Nazi Naval failure. It (Please Turn to Page 2)

J. F. Epling Weds In England; Brother Takes Colorado Bride

Word has been received here of the weddings of two brothers who were members of the graduating class of the Arendtsville Vocational high school in 1937.

Epling—Connah
From "somewhere in England" has come the news—in a V-mail letter—of the marriage of Corporal James Franklin Epling, 25, son of Mr. and Mrs. W. F. Epling, who now reside at Fort Collins, Colorado. The corporal married Miss Doreen S. Connah, of England, on November 6, and because the ceremony took place in the Methodist church of her home town, the identity of her home city could not be revealed.

After Corporal Epling's graduation from the Arendtsville school, he attended the Colorado State college for two years, and then was employed by the Colorado State hospital at Pueblo for two years before he joined the Army. He is stationed at a large hospital in England.

The bride's parents are dead but she has five brothers in the British armed forces. She is a graduate of the London Conservatory of Music.

Epling—Kelso
The other wedding is that of Dr. Glenn P. Epling and Miss Estelle Kelso, both of Fort Collins, Colorado, which took place on Sunday, December 27, at Fort Collins in a Methodist church.

After graduating from Arendtsville, Doctor Epling received the degree of Doctor of Veterinary Medicine from the Colorado State college of A. and M., on December 23. He holds a commission as second lieutenant and expects an early call to duty with the U. S. Army.

Until that call comes he will work in the laboratory of the U. S. Bureau of Animal Industry, Springfield, Illinois, division. He is a member of the honorary Veterinary fraternity, Alpha Phi.

While Doctor Epling goes to Springfield, his bride will remain in Fort Collins and attend Colorado State college where she will be graduated in the spring with the degree of bachelor of arts in music.

The bridegrooms are brothers of Mrs. E. B. Romig of near Arendtsville and have many friends in Adams county.

46 FROM BOARD 2 WILL REPORT TO ARMY ON JAN. 8

Forty-six of the 53 young men sent to Harrisburg on New Year's Day by Draft Board No. 2 for final Army physical examinations and induction into the United States Army were accepted, the board announced today.

The youths were sworn into the Army and then granted leaves of absence until next Friday, January 8, when they will report to the New Cumberland induction center.

One Enlistment
The 46 accepted were among an original 58 summoned for January 1. Three were ill and could not report. They will be sent over later. One man has enlisted—Eugene A. Purdy of Harrisburg—and another was transferred to another board for induction. Seven were rejected after Friday's examinations at Harrisburg.

GAS RATIONING CUTS ACCIDENTS

The rationing of gasoline and tires, the decrease in auto traffic and the reduction in the speed limit have greatly reduced the number of accidents on highways in this section, the annual report prepared by Corporal F. C. Russell, of the Gettysburg detail of the state motor police, discloses.

During the year ending Thursday midnight, members of the Gettysburg sub-station investigated 179 accidents. In 1941 they probed 250 mishaps, and the year before that, 266 accidents were investigated.

Last year eight persons died in highway accidents as compared with 20 in 1941 and 13 in 1940.

Seventy-two of the 170 accidents which occurred in 1942 happened during the first three months of the year, before motorists were forced to abandon pleasure trips. There were 32 accidents in January, 20 in February and 22 in March.

In the last nine months of the year no month had more than 14 accidents. June and July, which in the days before rationing were usually marked by many accidents, there were only 18 mishaps in 1942—nine in June, nine in July.

The decline in the number of accidents was evident in April when there were only 12 accidents, 10 less than in March, 20 less than in January. In May there were 13 accidents, in August 13, in September 10, in October 12 and in November 13. December had the heaviest accident toll since March, there being 14 mishaps investigated by the state police last month.

R.C. STRESSED PRODUCTION IN '42 ACTIVITIES

With expanded programs of home service work, first aid training, production of clothing for civilians and members of the armed forces alike, the making of service kits for overseas-bound soldiers, the Junior Red Cross program and in regular chapter activities, the Adams county chapter of the Red Cross on Thursday closed a year that has had no parallel in its history since World War days.

Nearly 5,000 garments for civilian war refugees and for the men in the services already have been made and shipped; close to 500 service kits are finished; 444 adults and young people have been given training in home nursing; 424 home service cases have been handled with a large proportion of them involving men in the service or veterans of World War I; more than 800 first aid training certificates have been issued and the Junior Red Cross has completed the 100 per cent enrollment of all of the public and parochial schools of the county.

The newest project of the county chapter—the making of surgical dressings for Army and Navy use—has seen the completion of the initial quota of 9,000 and already started the second quota of 7,200.

The whole production program has been carried on by an estimated 700 to 800 volunteer women and girls. Other volunteer workers have handled the first aid, nurses' aide and home nursing programs.

SCHOOL PROJECT IN DENTISTRY IS DISCUSSED

The Adams county board of school directors at a meeting Friday evening in the office of the county superintendent of schools at the court house conducted a discussion relative to the board sponsoring a school dentistry project in upper Adams county, provided that service clubs provide the materials and the state pay \$2 per hour for work done by approved dentists up to 20 hours per month per dentist.

Discussion of the proposed project, never previously undertaken on a similar basis in this county, was led by Robert A. Bream, the assistant county superintendent of schools.

Board Favors Project
Members of the board expressed themselves as favoring this project to be developed on a county-wide basis, if possible, and asked Mr. Bream to secure more information relative to the possibility of other sections of the county participating. The matter was listed for further consideration and report at the next county board meeting.

FLOODING OHIO BEATS AGAINST PORTSMOUTH

Portsmouth, O., Jan. 2 (AP)—The Ohio river hurled its full flood fury at this industrial city of 40,400 inhabitants today after driving 30,000 persons from their homes upstream and causing damage that may reach \$3,500,000.

Scores of families were removed from unprotected outlying communities.

The river, running out of its banks for 760 miles from East Liverpool, O., to below Evansville, Ind., was expected to crest here late tonight or Sunday at 61 feet, 11 above flood stage. It was at 60 today.

129 Couples Licensed In Year; 7 Divorces

For every couple that filed for divorce in Adams county last year, nine applied for marriage licenses here, the court house records showed today.

The number of marriage licenses issued here showed a marked decrease from the 1941 total but divorces dropped too.

In 1942 only 129 couples were issued wedding licenses as compared with 171 in 1941 and 227 in 1940.

Fourteen couples opened divorce actions. One of those was later withdrawn and seven decrees were handed down by the court. One divorce action opened in 1941 was dismissed last year.

The 1942 divorce rate shows a marked decrease under that for the last few years here. In 1941, 21 couples sued for divorce, while in 1940 a five-year record was set by the 24 couples who sued for divorce.

J. F. Epling Weds In England; Brother Takes Colorado Bride

Word has been received here of the weddings of two brothers who were members of the graduating class of the Arendtsville Vocational high school in 1937.

Epling—Connah

From "somewhere in England" has come the news—in a V-mail letter—of the marriage of Corporal James Franklin Epling, 25, son of Mr. and Mrs. W. F. Epling, who now reside at Fort Collins, Colorado. The corporal married Miss Doreen S. Connah, of England, on November 6, and because the ceremony took place in the Methodist church of her home town, the identity of her home city could not be revealed.

After the wedding, Corporal Epling and his bride went on an eight-day "furlough" honeymoon trip to a nearby city of historical interest.

After Corporal Epling's graduation from the Arendtsville school, he attended the Colorado State college for two years and then was employed by the Colorado State hospital at Pueblo for two years before he joined the Army. He is stationed at a large hospital in England.

The bride's parents are dead but she has five brothers in the British armed forces. She is a graduate of the London Conservatory of Music.

Epling—Kelso

The other wedding is that of Dr. Glenn P. Epling and Miss Esther Kelso, both of Fort Collins, Colorado, which took place on Sunday, December 27, at Fort Collins in a Methodist church.

After graduating from Arendtsville, Doctor Epling received the degree of Doctor of Veterinary Medicine from the Colorado State college of A. and M., on December 23. He holds a commission as second lieutenant and expects an early call to duty with the U. S. Army.

Until that call comes he will work in the laboratory of the U. S. Bureau of Animal Industry, Springfield, Illinois, division. He is a member of the honorary Veterinary fraternity, Alpha Phi.

BERLIN REPORTS ARCTIC BATTLE

Berlin (From German Broadcasts), Jan. 2 (AP)—German warships and U-boats, combining in an attack on and beneath the Arctic ocean, damaged several Allied cruisers, sank a destroyer and torpedoed four merchantmen in a naval battle, a Nazi communique reported today.

The only ship listed as sunk was the destroyer and the communique said the Germans also lost a destroyer in the action which, it said, developed from the pursuit of a convoy.

The communique said the action occurred Dec. 31 near Bear Island, which lies about midway between Spitzbergen and the northern tip of Norway.

(The German communique coincided in time and approximate location with the British Admiralty announcement Thursday that British warships had contacted German Naval units in northern waters early that morning and that the action was continuing.)

(There was no confirmation of the German claims, however, which bore at least surface evidence of covering a Nazi Naval failure. It was continuing.)

STOVES AVAILABLE

Philadelphia, Jan. 2 (AP)—Rationing regulations governing the sale of coal stoves have been liberalized to help save fuel oil in the east, the regional office of Price Administration announced today. "Anyone who will use the stove to replace an oil heater is eligible for a purchase certificate," state Director R. F. Ashenfelter said.

Allies Strike Supplies In Tunisia BULLETIN

Moscow, Jan. 2 (AP)—The red flag of the Soviets flew over the ancient Russian town of Velikie Luki today to signal a major Russian victory on the central front.

(By The Associated Press)

Adolf Hitler's command acknowledged today that German troops had evacuated Elista, capital of the Kalmyk region in the Caucasus, but denied Soviet claims that the triumphant Red Armies had won the key Nazi stronghold of Velikie Luki 90 miles from the Latvian frontier.

Nazi headquarters said the garrison at Velikie Luki was holding out stubbornly yesterday, despite fierce Soviet attacks, and added:

"Russian reports that Velikie Luki has been occupied already are therefore not correct."

It did not tell of the progress of the battle today.

Russian headquarters declared the entire Nazi garrison was slain when it refused to surrender.

The Germans said Elista was evacuated after the town had been completely destroyed.

A grim blackout on Soviet war news first greeted German radio listeners this morning, and for several hours the populace was deprived of even its usual diet of sugar-coated propaganda served up by Dr. Goebbels' experts.

The Germans admitted on Thursday that Velikie Luki was virtually surrounded, with the Russians attacking "from all sides."

"E" Bond Purchase Limit Announced

Individuals now are permitted to purchase the limit of \$5,000 of series "E" War Savings Bonds, it was announced today by Edmund W. Thomas, chairman of the Victory Bond campaign in Adams county.

The county's quota of bonds for January has been set at \$144,065. The chairman explained that the quota is determined by adding to the December quota a proportion of the value of the bonds that are purchased over the United States, broken down into county ratios.

Georgia, Alabama, Tennessee, Texas Capture Bowl Games On New Year's Day

3,000 FANS SEE BATTLES DESPITE WAR

Pasadena, Calif., Jan. 2 (AP)—The Rose Bowl football game given \$50,000 to the American Red Cross.

The gift, announced by the president of the American Football Association, the Pacific Coast Intercollegiate Conference, the University of California and the University of California at Los Angeles, was accepted in a telegram from Norman H. Davis, American Red Cross chairman, in Washington.

By AUSTIN BEALMEAR
Pasadena, Calif., Jan. 2 (AP)—UCLA's two bad ankles didn't stop the Bruins from capturing the Rose Bowl and the war to stop the customers yesterday's event of 1943 brought the largest number of New Year's Day all games to an unexpected end of fans.

Spice of gasoline rationing and restriction, the six major classes were played before an attendance of approximately 303,000, about 50,000 more watched the same games a year ago.

Pasadena's Rose Bowl game, home after being chased all the way to the Atlantic coast by regulations last year, a city crowd of 93,000 watched Georgia Bulldogs shut out the U.S.A., 9-0. Only 56,000 watched the 1942 game at Durham, N.C., because there wasn't room for more.

Tulsa Defeated
The Sugar Bowl at New Orleans, Tennessee's Volunteers nipped all-victorious Tulsa Hurricane, before 70,000, only 3,000 less the sellout mob of 1942 and 20,000 more than advance tickets indicated.

A crowd of 36,000 which saw Tulsa turn back Georgia Tech, 14-7, at the Cotton Bowl at Dallas, was shy of last year's mark but at least 10,000 more than the previous year.

Forty thousand got their money's worth in Miami's Orange Bowl clash in Alabama's storm through on college, 37-21. The previous year's attendance was 35,505, but then the stadium's seating capacity had been reduced somewhat.

Overflow crowd of 16,000 packed into the 15,000-capacity stadium at El Paso, Tex., for the Sun Bowl game, in which the Second Army Bombers tripped Hardin, 13-7. And at San Francisco, the Eastern All-Stars nosed the Westerners, 13-12, before 10,000, around 23,000 more than saw the Shrine encounter last year when it was shifted to New Orleans.

Sinkwich Scores
Actually all the luminaries perished as advertised.

Shattered by injuries to both ankles, Georgia's Sinkwich led his team to victory in the Rose Bowl game's only touchdown in the final period. And it was his high-powered running mate, George Poschner, who broke through Red Ford's block to block Bob Water's punt and post a safety that ended the scoring after the teams battled through three periods until a tally.

Penn Dobbs, Tulsa's All-American back, tossed seven passes in the game, the last for his team's lone touchdown against Tennessee. Such spectacular aerial display was high, however, for Bobby Cifers, Walter Slater, whose running passing put the Vols in position to score two touchdowns.

Holovak Stars
It was the same way at Miami, where All-American Mike Holovak led all three Boston college touchdowns, two of them on runs of 5 and 34 yards. But he couldn't catch the scoring parade of Alabama's Russ Craft, Dave Brown, and August and Russ Mosley. Tide came from behind twice in the first half and won going away in the intermission.

Going away after the intermission, McKay and Jackie Field, who were to the Southwest Conference title, were the Longhorn stars against Georgia Tech. McKay led to Max Minor for one touchdown and Field rambled 60 yards the other. Clint Castiberry, Texas' fine freshman, couldn't pierce stout Texas line for three quarters, but finally sparked a 67-yard dash that ended in a marker for Engineers.

It was Columbia's Paul Gornall, half member of the All-American backfield, who tossed one scoring pass for the East and led the march to the winning touchdown in the period at San Francisco. And to Kennedy, Pacific coast star in Washington State, scored one of the West's touchdowns and passed the other.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.

New York, Jan. 2 (AP)—Well, that year 1943 that everybody has been talking about arrived an hour ahead of schedule—war time, you know—and if we could show as much speed in coming up with the answers to all the questions about what will happen this year, it would save a lot of trouble.

Speaking for sports, our guess is that "spectacles" are on their way out but that competition will continue on a broad basis, mainly because the Army and Navy seem to want to get the boys in shape for service.

The folks who followed pro football last fall concluded that it was the last season for the duration; the same impression goes with the current hockey season and we figure major league baseball probably will stagger through 1943 and then fade out.

The schools and colleges seem to be coming around to the idea that their job is to train boys for the armed forces and once they learn they can't run another big-time football schedule, they'll probably concentrate on just that, even though the physical training costs money instead of providing it.

QUOTE, UNQUOTE
What touched off the above train of thought was re-reading a letter written several months ago by an Army officer. . . . "About the best reason I have heard advanced why athletics will disband for the duration," he wrote, "is that when we start our major drive against Germany and Japan so many will be killed that every hamlet and city will be so shocked that no one will feel like attending an athletic contest, regardless of morale value."

Naturally everyone hopes that won't happen. . . . It isn't a cheerful prospect, but Sherman never said "War is a picnic," either.

ONE-MINUTE SPORTS PAGE
A whisper from Pittsburgh says Johnny Ray is getting another Billy Conn ready for the ring wars, a kid who won't be ready to turn pro for another six months. . . . Craig Wood, the golf pro, has been rejected by the armed forces because of spinal trouble and now plans to devote his time in 1943 to Red Cross exhibitions. . . . Sport Shirt Bill Veck, head man of the Milwaukee Brewers, is going in for pro basketball but he doesn't intend to bring Milwaukee into the National pro league until after the war. . . . Harness horse experts say that if a horse of the year was selected in their field, the Whirlaway of the chinch-whisker track would be W. E. Gilmore's Senator Abbe. . . . Joe Oringo, the ex-giant infielder, probably has the softest winter job of any ball player. He's driving a meat truck for a San Francisco packing house.

TODAY'S GUEST STAR
Ken Alyta, Waterbury (Conn.) Republican: "Maybe Sammy Baugh did make a sincere effort to reach Philadelphia for Sunday's pro-bowl game, but it seems to us that if you were anxious to reach the city of brotherly love in time for a 2 o'clock Sunday afternoon ball game, you wouldn't be scurrying around at 11:50 Saturday night, far off in Texas, looking for a plane, especially in these days of travel difficulties."

MAROONS HAVE BEST ATHLETIC YEAR IN 1942

Gettysburg high school enjoyed its most successful athletic year in many seasons during 1942.

While all of the major teams turned in above average performances it was the basketball team which gained state-wide attention through its fine performance.

Despite heavy inroads made on the squad through graduations of the year before, Coach George Forney moulded together what is now considered the finest Maroon and White cage team in history. The Maroons romped through their regular schedule to win 20 games while losing one and snared its second straight Southern Pennsylvania Interscholastic league championship.

Win District Title
Entering the District 3 PIAA playoffs the Maroons faced the hitherto unbeaten William Penn high quintet and Mt. Penn high to take their second consecutive District title. Lower Merion, who finally clinched the state championship, whipped the Forney-men 21-13 in an inter-district game at Lebanon. The Maroons' record reveals 23 victories against 20 defeats, the finest in history.

The track team also enjoyed a successful, although brief season. Topping its performance the Maroon cindermen copped the Southern Pennsylvania conference meet for the eighth successive time. Gettysburg has won every conference meet since its inception.

Gridlers Surprise
One of the most pleasant surprises to local fans was the 1942 football team. Given little chance of winning more than three games because of the loss of most of the 1941 varsity squad, the Maroons came up with a powerful aggregation that ended up with a record of six wins and two defeats and gained second place in the Southern Pennsylvania conference. Until the final stages of the race, Gettysburg was a constant threat to Hanover who was unbeaten and clinched the top honors.

Upper Huntington

Upper Huntington — Justin and Luther Horick, who are employed in Chambersburg, spent Sunday at the home of their parents, the Rev. and Mrs. Paul Horick.

Mrs. Rodney Cluck has returned to her home in Sterling, Illinois, after spending several weeks at the home of her brother-in-law, Kermit Cluck, and family.

Mr. and Mrs. Raymond Miller, Mr. and Mrs. Gilbert Guise, Mr. and Mrs. Robert Guise and daughter, Helen, Mrs. Robert E. Paull, Mrs. Charles R. Slaybaugh, Mildred Miller, Elsie Lobough and Irene Lobough visited Betty Miller at the Hanover hospital last week.

Motor Club Recommends Extension Of Highway To Maryland Boundary

Extension of the modernized Gettysburg-Littlestown highway beyond Littlestown to the Maryland state line and modernization of the Lincoln Highway west of Gettysburg are recommended and urged to the Pennsylvania Department of Highways by the Gettysburg Motor Club of Adams county in its annual report to the department.

The local motor club has been working in close harmony with the state highway department for a number of years. It has conducted surveys of peak traffic loads on various highways on many occasions for the department, to ascertain the degree of travel in this area on holidays and normal periods. It has sounded out public opinion on highway projects and in many other ways demonstrated a cooperative spirit.

Submitted to Engineer
Each year the motor club submits an annual report to the department together with recommendations. These recommendations are usually submitted through the district maintenance engineer. This year it was submitted through Robert E. Elsminger, former Adams county superintendent of highways, now district engineer for the department.

Mr. Elsminger reported that the

FEDERAL SYSTEM FOR MARKETING IS PROPOSED

By WILLIAM F. ARBOGAST

Washington, Jan. 2 (AP)—Visualizing the establishment of a federally-financed marketing system through which consumers would pay less for their food and farmers would receive more, Chairman Fulmer (D-SC) of the House Agriculture committee said Thursday the committee would undertake a study of the proposal shortly after Congress convenes next week.

The investigation, Fulmer said, would be to determine how much of the nation's food bill goes to "middlemen," but out of it probably would come recommendations for overhauling the entire marketing set-up.

200 P. C. Spread
"It is about time," Fulmer declared, "that the public was told who gets most of the money spent for food produced by our farmers. Too many people long have had the idea the farmer was getting the money, when as a matter of fact there has been a spread of as much as 200 per cent between the price a farmer received for his product and the price the consumer paid."

Most of this spread, he asserted, went to "middlemen who, like leeches, are sucking the money out of the consuming public and letting the farmer take the blame for high food prices."

As an example of the spread between farm and market prices, Fulmer said sweet potatoes for which the farmer receives only two cents a pound are retailing at six cents. "The difference," he continued, "goes into the cost of private transportation facilities, commission men's and broker's profits and other unnecessary distribution charges, but the farmer doesn't get a cent of it, and most of the middlemen services are absolutely unnecessary."

Favors Cooperative
Fulmer said he favored establishment of a cooperative marketing system under which farmers would do their own marketing and distribution through local, state and national organizations. Government grading and pricing of their products would be part of the system, which also would handle packing, canning and other incidentals.

"Under this system," he said, "the farmer would be his own middleman," Fulmer asserted. "Part of the profit that now goes to the middlemen would go to the farmer, who would receive higher prices for his products, and part of it would go to the consumer, who would pay less."

The German battleship Bismarck was chased 1,750 miles before the Royal Navy sank her.

yards to 97 in net yards from scrimmage made the UCLA effort look pretty feeble. The 24 first downs Georgia rolled up to five for the opposition emphasized the difference between the champions of the Southeastern and the Pacific conference.

Three Scoreless Periods
But for three periods the short-end Bruins held the Bulldogs at bay, staved off three touchdown drives and stopped the two Georgia backfield terrors, All-America Frankie Sinkwich and his understudy and the game star, Charley Trippi.

For their part, the Bruins dipped deep into Georgia ground twice in the first period. They reached the 16 and 19 yard lines but those efforts completed their strongest attacks.

From then on they were strictly on the defensive. They stopped flat-foot Frankie on the one-yard line in the third period, then yielded an automatic safety and a touchdown in the final quarter.

The score that broke the deadlock came on the first play of the last period. Bob Waterfield, UCLA quarterback, dropped back to punt from his end zone. Two Georgians were in there to stop the kick. The ball bounded out of bounds and the Bulldogs were on their way to victory.

Sinkwich Scores
Georgia's only touchdown followed soon. The scoring play tailed off a great pass interception by Clyde Ehrhardt, Georgia center. He snagged a swift one tossed by Waterfield and was downed on the Bruins' 25.

From there on the Georgians played like the champions they really are.

Line plunges by Trippi and his mates brought the ball to within less than a yard of scoring turf. Sinkwich, who had hobbled in and out of the game on two sprained ankles a dozen or more times, came back. This time he did it. He powered straight through for the touchdown that permitted him to bow out of college football in a blaze of glory.

NAZIS EVACUATE

(Continued From Page 1)
The Nazi-held Citadel, 260 miles northwest of Moscow, laid open the heart of an important German transportation system and climaxed a long and bitter siege.

"The German garrison in the town, which refused to lay down its arms, was wiped out," the Russian high command announced.

The Russians declared that Hitler's invasion armies were in hurried retreat across a 1,000-mile front, abandoning vast quantities of arms and supplies, while the Red Army captured "several dozen" towns in a single phase of the titanic struggle.

Good news for the United Nations came also from the north African front, where British headquarters reported that vanguards of Gen. Sir Bernard L. Montgomery's Eighth Army attacked Axis motorized forces west of Wadi Bel El Chebir and drove them into retreat.

The Wadi, or Gully, lies about 180 miles east of Tripoli.

The extent of the battle was not disclosed, a terse British communiqué stating:

"Yesterday our patrols were active in enemy vehicles and guns were engaged and withdrew."

Supply Lines Hit

On the Tunisian front, Allied warplanes struck heavy new blows against Axis supply lines and bases as both sides massed for an approaching showdown.

Artillery duels thundered in the hills of northern Tunisia, in the Tunis-Bizerte sector, and French headquarters reported that French troops drove off an attack by Axis forces in the region east of Pichon in southern Tunisia, inflicting losses on the enemy.

Another French column under Brig.-Gen. Jacques Leclerc, advancing into southern Libya across 900 miles of desert from the Lake Chad region of equatorial Africa, was reported to have broken up an Axis motorized force in the Fezzan region.

In aerial assaults, Allied planes pounded the Axis Tunisian strongholds of Sousse, Sfax and Gabes, destroyed enemy cars and trucks near the Tunisian-Libyan border, and crippled at least three enemy ships.

Allied submarines sank two more Axis supply vessels and probably sank a destroyer.

BURMA—U. S. Air Force planes operating from India sharply attacked Japanese rail communications in north Burma, bombing and strafing trains and rail installations along the Myitkina-Mandalay railroad.

RAF Blenheim bombers also pounded the enemy, setting fires at Kalemoy in the Muththa valley, attacked shipping along the Burmese coast and strafed river boats.

CHINA—Generalissimo Chiang Kai-shek's hard fighting Chinese troops were reported to have reached Tsienshin and Taihu, in southwest Anhwei province, and Chinese dispatches said the Japanese were retreating southward in the direction of Szung, 22 miles below Taihu, on the Yangtze river.

BERLIN REPORTS

(Continued from Page 1)
was noteworthy that the German statement claimed destruction of none of the cargo ships of the convoy—presumably bound to or from Russia—and only claimed torpedo hits on four.

(The British announced last night the loss of a destroyer, HMS Blean, but told neither the time nor circumstances of her sinking.)

(The Admiralty said a German cruiser was damaged and forced to withdraw and another destroyer was last seen in a sinking condition.)

(The British have issued no subsequent report on the battle.)

CHASE IN TOWN BRINGS CHARGES

A New Year's eve celebrator who used precious gasoline and rubber—and the cut-out on his automobile—while he sped about the town with five companions Thursday night and early Friday morning, according to police, has been charged with making excessive noise with his car and with driving too fast for conditions.

In addition to that, Chief of Police Glenn Guise, who brought the charges, has cited the defendant to the local rationing board for abuse of the tires on his car.

Howard McCleaff, aged about 20 years, 30 North Washington street, is named as the defendant in the informations filed before Justice of the Peace John H. Baschore by the local police chief.

The officer said he was parked on Springs avenue when the McCleaff car, headed east, mounted the south curb on Chambersburg street as it made the turn from Buford avenue onto Chambersburg street. The officer said he gave chase at speeds that reached 70 and 85 miles an hour and caught McCleaff a mile from town on the Harrisburg highway.

McCleaff has been issued the usual 10-day notice to appear for a hearing or pay his fines.

The only other arrest in town over the holiday was made by Borough Officer Horace L. Bender who nabbed William Ruiz, of no fixed address, on a disorderly conduct charge, Thursday. Justice Baschore sent him to jail for 20 days in default of payment of a \$10 fine.

Georgia, Alabama, Tennessee, Texas Capture Bowl Games On New Year's Day

303,000 FANS SEE BATTLES DESPITE WAR

Pasadena, Calif., Jan. 2 (AP)—The Rose Bowl football game has given \$50,000 to the American Red Cross.

The gift, announced by the Tournament of Roses Association, the Pacific Coast Intercollegiate Conference, the University of Georgia and the University of California at Los Angeles, was accepted in a telegram from Norman H. Davis, Red Cross chairman, in Washington.

By AUSTIN BEALMEAR
New York, Jan. 2 (AP)—U.C.L.A. and two bad ankles didn't stop Frankie Sinkwich and the war didn't stop the customers yesterday as the advent of 1943 brought the expected number of New Year's Day football games to an unexpected number of fans.

In spite of gasoline rationing and travel restriction, the six major holiday classics were played before a combined attendance of approximately 303,000, about 50,000 more than watched the same games a year ago.

In Pasadena's Rose Bowl game, back home after being chased all the way to the Atlantic coast by wartime regulations last year, a capacity crowd of 93,000 watched the Georgia Bulldogs shut out the Bruins of U.C.L.A., 9-0. Only 56,000 watched the 1942 game at Durham, N. C., because there wasn't room for any more.

Tulsa Defeated
In the Sugar Bowl at New Orleans, Tennessee's Volunteers nipped the all-victorious Tulsa Hurricane, 14-7, before 70,000, only 3,000 less than the sellout mob of 1942 and fully 20,000 more than advance ticket sales indicated.

A crowd of 36,000 which saw Texas turn back Georgia Tech, 14-7, in the Cotton Bowl at Dallas, was 2,000 shy of last year's mark but at least 10,000 more than the promoters expected.

Thirty thousand got their money's worth in Miami's Orange Bowl clash when Alabama stormed through Boston College, 37-21. The previous year's attendance was 35,505, but since then the stadium's seating capacity had been reduced something like 7,000.

An overflow crowd of 16,000 squeezed into the 15,000-capacity stands at El Paso, Tex., for the Sun Bowl game, in which the Second Air Force Bombers tripped Hardin-Simmons, 13-7. And at San Francisco, the Eastern All-Stars nosed out the Westerners, 13-12, before 58,000, around 23,000 more than saw the Shrine encounter last year when it was shifted to New Orleans.

Sinkwich Scores
Virtually all the luminaries performed as advertised.

Hobbled by injuries to both ankles, All-America Frankie Sinkwich led Georgia to victory in the Rose Bowl by scoring the game's only touchdown in the final period. And it was his high-powered running mate, George Poschner, who broke through with Red Boyd to block Bob Waterfield's punt and post a safety that opened the scoring after the teams had battled through three periods without a tally.

Glenn Dobbs, Tulsa's All-America back, tossed seven passes in a row and completed every one of them, the last for his team's lone touchdown against Tennessee. Such a spectacular aerial display wasn't enough, however, for Bobby Cifers and Walter Slater, whose running and passing put the Vols in position for two touchdowns.

Holovac Stars
It was the same way at Miami, where All-America Mike Holovac scored all three Boston college touchdowns, two of them on runs of 65 and 34 yards. But he couldn't match the scoring parade of Alabama's Russ Craft, Dave Brown, Johnny August and Russ Mosley. The Tide came from behind twice in the first half and won going away after the intermission.

Roy McKay and Jackie Field, who led Texas to the Southwest Conference title, were the Longhorn stars against Georgia Tech. McKay passed to Max Minor for one touchdown and Field rambled 60 yards for the other. Clint Castleberry, Tech's fine freshman, couldn't pierce the stout Texas line for three quarters, but finally sparked a 67-yard march that ended in a marker for the Engineers.

It was Columbia's Paul Gornall, fourth member of the All-America backfield, who tossed one scoring pass for the East and led the march for the winning touchdown in the last period at San Francisco. And Bob Kennedy, Pacific coast star from Washington State, scored one of the West's touchdowns and passed for the other.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.

New York, Jan. 2 (AP)—Well, that year 1943 that everybody has been talking about arrived an hour ahead of schedule—war time, you know—and if we could show as much speed in coming up with the answers to all the questions about what will happen this year, it would save a lot of trouble.

Speaking for sports, our guess is that "spectacles" are on their way out but that competition will continue on a broad basis, mainly because the Army and Navy seem to want to get the boys in shape for service. . . . The folks who followed pro football last fall concluded that it was the last season for the duration; the same impression goes with the current hockey season and we figure major league baseball probably will stagger through 1943 and then fade out. . . . The schools and colleges seem to be coming around to the idea that their job is to train boys for the armed forces and once they learn they can't run another big-time football schedule, they'll probably concentrate on just that, even though the physical training costs money instead of providing it.

QUOTE, UNQUOTE

What touched off the above train of thought was re-reading a letter written several months ago by an Army officer. . . . "About the best reason I have heard advanced why athletics will disband for the duration," he wrote, "is that when we start our major drive against Germany and Japan so many will be killed that every hamlet and city will be so shocked that no one will feel like attending an athletic contest, regardless of morale value." . . . Naturally everyone hopes that won't happen. . . . It isn't a cheerful prospect, but Sherman never said "War is a picnic," either.

ONE-MINUTE SPORTS PAGE

A whisper from Pittsburgh says Johnny Ray is getting another Billy Conn ready for the ring wars, a kid who won't be ready to turn pro for another six months. . . . Craig Wood, the golf pro, has been rejected by the armed forces because of spinal trouble and now plans to devote his time in 1943 to Red Cross exhibitions. . . . Sport Shirt Bill Veeck, head man of the Milwaukee Brewers, is going in for pro basketball but he doesn't intend to bring Milwaukee into the National pro league until after the war. . . . Harness horse experts say that if a horse of the year was selected in their field, the Whirlaway of the chinch-whisker track would be W. E. Gilmore's Senator Abbe. . . . Joe Oringo, the ex-giant infelder, probably has the softest winter job of any ball player. He's driving a meat truck for a San Francisco packing house.

TODAY'S GUEST STAR

Ken Alyta, Waterbury (Conn.) Republican: "Maybe Sammy Baugh did make a sincere effort to reach Philadelphia for Sunday's pro-bowl game, but it seems to us that if you were anxious to reach the city of brotherly love in time for a 2 o'clock Sunday afternoon ball game, you wouldn't be scurrying around at 11:50 Saturday night, far off in Texas, looking for a plane, especially in these days of travel difficulties."

SERVICE DEPT.

Birdie Tebbetts, former Detroit catcher, is a recent arrival at Miami to enter an officers' training school. . . . Johnny Beasley of the Cards is heading for the same spot.

MAROONS HAVE BEST ATHLETIC YEAR IN 1942

Gettysburg high school enjoyed its most successful athletic year in many seasons during 1942.

While all of the major teams turned in above average performances it was the basketball team which gained state-wide attention through its fine performance.

Despite heavy inroads made on the squad through graduations of the year before, Coach George Forney moulded together what is now considered the finest Maroon and White cage team in history. The Maroons romped through their regular schedule to win 20 games while losing one and snared its second straight Southern Pennsylvania Interscholastic league championship.

Win District Title

Entering the District 3 PIAA playoffs the Maroons faced the hitherto unbeaten William Penn high quintet and Mt. Penn high to take their second consecutive District title. Lower Merion, who finally clinched the state championship, whipped the Forney-men 21-13 in an inter-district game at Lebanon. The Maroons' record reveals 23 victories against two defeats, the finest in history.

The track team also enjoyed a successful, although brief season. Topping its performance the Maroon cindermen copped the Southern Pennsylvania conference meet for the eighth successive time. Gettysburg has won every conference meet since its inception.

Gridgers Surprise

One of the most pleasant surprises to local fans was the 1942 football team. Given little chance of winning more than three games because of the loss of most of the 1941 varsity squad, the Maroons came up with a powerful aggregation that ended up with a record of six wins and two defeats and gained second place in the Southern Pennsylvania conference. Until the final stages of the race, Gettysburg was a constant threat to Hanover who was unbeaten and clinched the top honors.

Upper Huntington

Upper Huntington—Justin and Luther Horick, who are employed in Chambersburg, spent Sunday at the home of their parents, the Rev. and Mrs. Paul Horick.

Miss Betty Miller was taken to the Hanover hospital Saturday evening and operated upon for appendicitis.

Mrs. Laura Thomas, of Mt. Holly Springs, has returned home after spending several days at the home of Mr. and Mrs. Earl Delp.

Miss Emma Jeanne Funk, teacher of Miller's school, is spending the holiday vacation with her parents, Bishop and Mrs. Ezra Funk, of Huntington, Indiana.

Mrs. Rodney Cluck has returned to her home in Sterling, Illinois, after spending several weeks at the home of her brother-in-law, Kermit Cluck, and family.

Mr. and Mrs. Raymond Miller, Mr. and Mrs. Gilbert Guise, Mr. and Mrs. Robert Guise and daughter, Helen, Mrs. Robert E. Paull, Mrs. Charles R. Slaybaugh, Mildred Miller, Elsie Lough and Irene Lough visited Betty Miller at the Hanover hospital last week.

Miss Nell Wiseman, who is teaching school near Harrisburg, spent the holidays with her parents, Mr. and Mrs. Charles Wiseman.

Motor Club Recommends Extension Of Highway To Maryland Boundary

Extension of the modernized Gettysburg-Littlestown highway beyond Littlestown to the Maryland state line and modernization of the Lincoln Highway west of Gettysburg are recommended and urged to the Pennsylvania Department of Highways by the Gettysburg Motor Club of Adams county in its annual report to the department.

The local motor club has been working in close harmony with the state highway department for a number of years. It has conducted surveys of peak traffic loads on various highways on many occasions for the department, to ascertain the degree of travel in this area on holidays and normal periods. It has sounded out public opinion on highway projects and in many other ways demonstrated a cooperative spirit.

Submitted to Engineer

Each year the motor club submits an annual report to the department together with recommendations. These recommendations are usually submitted through the district maintenance engineer. This year it was submitted through Robert E. Elsminger, former Adams county superintendent of highways, now district engineer for the department.

Mr. Elsminger reported that the

Pasadena, Calif., Jan. 2 (AP)—Georgia's football empire remained intact today but for brief moments of three flashing periods yesterday it tottered in the concrete stadium here known as the Rose Bowl.

As measured on the statistical chart, the Bulldog easily mastered the Bruin. Such figures as 212

FEDERAL SYSTEM FOR MARKETING IS PROPOSED

By WILLIAM F. ARBOGAST

Washington, Jan. 2 (AP)—Visualizing the establishment of a federally-financed marketing system through which consumers would pay less for their food and farmers would receive more, Chairman Fulmer (D-SC) of the House Agriculture committee said Thursday the committee would undertake a study of the proposal shortly after Congress convenes next week.

The investigation, Fulmer said, would be to determine how much of the nation's food bill goes to "middlemen" but out of it probably would come recommendations for overhauling the entire marketing set-up.

200 P. C. Spread

"It is about time," Fulmer declared, "that the public was told who gets most of the money spent for food produced by our farmers. Too many people long have had the idea the farmer was getting the money, when as a matter of fact there has been a spread of as much as 200 per cent between the price a farmer received for his product and the price the consumer paid."

Most of this spread, he asserted, went to "middlemen who, like leeches, are sucking the money out of the consuming public and letting the farmer take the blame for high food prices."

As an example of the spread between farm and market prices, Fulmer said sweet potatoes for which the farmer receives only two cents a pound are retailing at six cents.

"The difference," he continued, "goes into the cost of private transportation facilities, commission men's and broker's profits and other unnecessary distribution charges, but the farmer doesn't get a cent of it, and most of the middlemen services are absolutely unnecessary."

Favors Cooperative

Fulmer said he favored establishment of a cooperative marketing system under which farmers would do their own marketing and distribution through local, state and national organizations. Government grading and pricing of their products would be part of the system, which also would handle packing, canning and other incidentals.

"Under this system, . . . the farmer would be his own middleman," Fulmer asserted. "Part of the profit that now goes to the middlemen would go to the farmer, who would receive higher prices for his products, and part of it would go to the consumer, who would pay less."

The German battleship Bismarck was chased 1,750 miles before the Royal Navy sank her.

yards to 97 in net yards from scrimmage made the UCLA effort look pretty feeble. The 24 first downs Georgia rolled up to five for the opposition emphasized the difference between the champions of the Southeastern and the Pacific conference.

Three Scoreless Periods

But for three periods, the short-end Bruins held the Bulldogs at bay, staved off three touchdown drives and stopped the two Georgia backfield terrors. All-America Frankie Sinkwich and his understudy and the game star, Charley Trippi.

For their part, the Bruins dipped deep into Georgia ground twice in the first period. They reached the 16 and 19 yard lines but those efforts completed their strongest attacks.

From then on they were strictly on the defensive. They stopped flat-foot Frankie on the one-yard line in the third period, then yielded an automatic safety and a touchdown in the final quarter.

The score that broke the deadlock came on the first play of the last period. Bob Waterfield, UCLA quarterback, dropped back to punt from his end zone. Two Georgians were in there to stop the kick. The ball bounded out of bounds and the Bulldogs were on their way to victory.

Sinkwich Scores

Georgia's only touchdown followed soon. The scoring play tailed off a great pass interception by Clyde Ehrhardt, Georgia center. He snagged a swift one tossed by Waterfield and was downed on the Bruins' 25.

From there on the Georgians played like the champions they really are.

Line plunges by Trippi and his mates brought the ball to within less than a yard of scoring turf. Sinkwich, who had hobbled in and out of the game on two sprained ankles a dozen or more times, came back. This time he did it. He powered straight through for the touchdown that permitted him to bow out of college football in a blaze of glory.

FRANKLIN TWP. DOWNS BIGLER

The Franklin Township consolidated school basketball teams captured a double-header from the Biglerville freshmen in games played Friday evening at Cashtown.

There was never any doubt as to the boys' game which ended 38-20. The victors took a 16-4 lead at the close of the first quarter and then Coach Shultz used his second stringers for a large part of the remainder of the game. Deardorff and Utz tallied 12 points apiece for their respective teams.

The preliminary game was a close affair throughout. Franklin township finally winning 18-15. A last period spurt brought victory after a point or two separated the teams for the first three quarters.

NEW YEAR'S RESOLUTION

From now until the war is won
My New Year's resolutions run
And here they are: Resolved that I
No needless, selfish thing will buy,
But everything I can will spend
Toward Schickelgruber's early end.

Resolved (Lord, grant me strength
of will)
All evil rumormongering to kill.
I will not pass along one word
Of anything I've seen or heard,
Or tell to any, high or low,
What Schickelgruber wants to know.

Resolved, until we beat the Axis,
To do no grumbling over taxes.
To give throughout the battle's
length
All time and treasure, thought and
strength,
And be a Yankee soldier tough
Till Schickelgruber cries: "Enough!"

Resolved for Ninetenn forty-three
Heart-whole in Freedom's cause to be;
To be until the world is freed
American in word and deed,
With faith to master every doubt,
Till Schickelgruber's down and out.

THE SUMMIT

There seems to be a fascination for high things. I wonder if it is because we like to associate our thoughts and achievements with those who have set their sights so high? The high mountain is always pointed out. Also the tall building. And when it comes to any outstanding creation, that one is emphasized.

I once read that near the snowy summit of the Alps there is an inscription on a marker that shows the last resting place of an Alpine guide. It merely reads: "He died climbing." This unique inscription calls to mind the one on the tomb of Green, the English historian, which reads: "He died Learning."

When we cease to aspire we cease to grow. And when we cease to grow we cease to live, and melt into old and sterile age. They only are ageless who keep climbing, keep growing, keep thinking, and keep doing.

In one of the old Readers of my school days was the story of the chap who wanted to place his name highest upon the Natural Bridge, in Virginia. His progress in his climb was watched breathlessly by those below, and the cry was heard: "Don't look down. Keep your eyes upon the Top!"

I think it was Browning who said: "... A man's reach should exceed his grasp, or what's a heaven for?" It is better to aim for something you want—and miss it, than to aim at nothing—and get it!

The Edward Everett Hale motto was: "Look up, not down. Lend a hand." We always lend a hand when we do something that encourages another. A favorite line of mine is this: He climbs highest, who helps another up. The summit compels us to look up. It inspires us to keep our eyes off the ground. Climbing takes courage, planning, and ingenuity. It takes faith and great power of the will.

Ideals become instruments by which we attain the various summits in life. Without them we only flounder and grow discouraged. Here let me close with an inspiring quotation from Lowell's "June" in "The Vision of Sir Launfal": "Not only around our infancy Doth heaven with all its splendors lie;

Daily, with souls that cringe and plot,
We sinners climb and know it not."

Tomorrow Mr. Adams will talk on the subject: "Sentiment."

Thousands Vaccinated To Curb Spread Of Smallpox

49 CASES ARE REPORTED IN EASTERN AREA

Philadelphia, Jan. 2 (AP)—Thousands of doctors, nurses, patients and employes in Philadelphia hospitals were vaccinated against smallpox yesterday and today as the Pennsylvania Health department reported eight new cases of the disease in nearby regions, bringing the total to 49 in an outbreak which developed two weeks ago.

Mass vaccinations were started in three large hospitals here, including the state hospital for the insane, and at four others in the suburbs. Directors of several other institutions ordered similar measures today or within a few days.

A hospital in suburban Abington, where one case had developed, was quarantined. Several others barred visitors.

Run on Vaccine
"The danger is great" that the disease will spread to this key war work center, Dr. Hubley R. Owen, city health director, said, urging residents to submit to vaccination.

"You can imagine the damage to the war effort if just one case occurred in a war plant."

A run on vaccine occurred in drug stores, but the health bureau said there was no immediate danger of a shortage. The serum is manufactured here by eight firms.

Only one case, in suburban Abington, had been reported in the immediate Philadelphia area. The outbreak first developed among the Amish "plain people" of Kishacoquillas valley, Mifflin county, 90 miles northwest of Philadelphia. The state health department said the carrier was an Ohio Amish woman who attended a wedding party there Nov. 24. The district was quarantined. Seven new cases were reported there yesterday, making the total 38.

Spreads 40 Miles
The disease spread from Mifflin to Lancaster county, about 40 miles west of Philadelphia, a new case was reported in that section yesterday, bringing the total there to ten. The health department said the patient was a Manheim, Pa., waitress who may have served a Mifflin county Amishman.

Cases also have been reported in adjoining states, one in Vineland, N. J. The patient there is a truck driver who visited farms in Lancaster county.

At Harrisburg Dr. J. Moore Campbell, director of the bureau of health conservation, announcing the new cases, said: "We won't be surprised to get a few more. It was December 23 when we came on the scene and it will be a week or more before our preventive measures can have their full effect."

LIKED ELECTRIC TRAINS
Pittsburgh, Jan. 2 (AP)—A 26-year-old truck driver, described in court as a model husband, said an unsatisfied craving since childhood to play with electric trains led him to steal \$172 worth of them from a department store over a period of several months. Mrs. Steve Poset, wife of the defendant, said that in his youth Poset's parents couldn't afford to buy him toy trains and "when we were married we spent our last \$25 to buy him a set." Judge Thomas Marshall suspended sentence but warned Poset that if he were ever arrested again he would get six months.

MAJESTIC THEATRE

Monday and Tuesday
"THUNDER BIRDS"

Wednesday
"YOU CAN'T ESCAPE FOREVER"

Thursday
"THE BOOGIE MAN WILL GET YOU"

Friday and Saturday
"FOR ME AND MY GAL"

Sunday
"BANDIT RANGER"

Monday and Tuesday
"Fifty thousand planes will roll off American assembly lines this year; over one hundred thousand, in 1943. Who's to fly them? That's the story of 20th Century-Fox's Technicolor 'Thunder Birds,' Soldiers of the Air. With every promise of becoming the film opening Monday at the Majestic theatre tells the story of Democracy's flying avengers, how they win their wings and sometimes lose their hearts in the process."

Gene Tierney, one of Hollywood's most enchanting young stars, carries top billing, while Preston Foster and John Sutton head a large and imposing featured cast.

WEDNESDAY
"You Can't Escape Forever," Warner Bros.' exciting new film, which will be at the Majestic theatre next Wednesday, is a newspaper story that is different in every sense of the word. It combines laughs with dramatic suspense in a manner that is both realistic and entertaining.

Starring Gene Tierney and Brenda Marshall, the picture tells the story of a keen-witted managing editor who is forced to conduct a loveless column as punishment for having bungled a story.

THURSDAY
Boris Karloff and Peter Lorre, filmdom's greatest masters of menace, had themselves a field day during production on Columbia's "The Boogie Man Will Get You," hilarious new comedy at the Majestic Thursday. The chiller-diller presents Karloff as a poisonous professor who "kills" six people, only to discover that he really didn't. Peter Lorre is a delightful rascal who convinces his way into anything that looks like money. To the stars, the film was a great change from the sombre thrillers in which they usually appear.

FRIDAY AND SATURDAY

Gene Kelly and Judy Garland, who have the top roles in "For Me and My Gal"

Vaudeville in its glittering heyday, New York's historic Palace theatre, haunting songs of an era gone by, form a kaleidoscopic background for a poignant romance in "For Me and My Gal," in which Judy Garland is presented at the Majestic theatre Friday and Saturday in her first fully adult role. Recalling the glories of other days to elders who loved vaudeville, at the same time it provides a breathless new type of entertainment for youngsters of today, to whom this is new.

MONDAY AND TUESDAY
Fifty thousand planes will roll off American assembly lines this year; over one hundred thousand, in 1943. Who's to fly them? That's the story of 20th Century-Fox's Technicolor "Thunder Birds." Soldiers of the Air. With every promise of becoming one of the best films of the year, the film opening Monday at the Majestic theatre tells the story of Democracy's flying avengers, how they win their wings and sometimes lose their hearts in the process.
Gene Tierney, one of Hollywood's most enchanting young stars, carries top billing while Preston Foster and John Sutton head a large and imposing featured cast.

WEDNESDAY
"You Can't Escape Forever." Warner Bros.' exciting new film, which will be at the Majestic theatre next Wednesday, is a newspaper story that is different in every sense of the word. It combines laughs with dramatic suspense in a manner that is both realistic and entertaining.
Starring George Brent and Brenda Marshall, the picture tells the story of a keen-witted managing editor who is forced to conduct a loveless column as punishment for having bungled a story.

THURSDAY
Boris Karloff and Peter Lorre, filmdom's greatest masters of menace, had themselves a field day during production on Columbia's "The Boogie Man Will Get You," hilarious new comedy at the Majestic Thursday. Peter Lorre is a delightful rascal who connives his way into anything that looks like money. To the stars, the film was a great change from the sombre thrillers in which they usually appear.

FRIDAY AND SATURDAY

Vaudeville in its glittering hey-day, New York's historic Palace theatre, haunting songs of an era gone by, form a kaleidoscopic background for a poignant romance in "For Me and My Gal," in which Judy Garland is presented at the Majestic theatre Friday and Saturday in her first fully adult role. Recalling the glories of other days to elders who loved vaudeville, at the same time it provides a breathless new type of entertainment for youngsters of today, to whom this is new.

Chapter 12

Delayed Answer

She didn't have an opportunity to see Dan Sherman again until the next afternoon at the Soldiers and Sailors' Benefit Show in the Auditorium. Mary was in the Lloyd box, of course, and she searched the packed house for nearly an hour before she saw him. It was during the intermission. A side door opened, a little flutter of applause as the crowd parted to admit first Carmencita de la Vega, star performer, and then—Dan Sherman.

Throughout the entire performance, Dan disappeared. Hovered. Mary supposed, in the draughty stage wings while Carmencita shed the long cape, came out into the spotlight, a lovely white moth in her simple, subtle dinner dress. And like the rest of her enthralled audience, his eyes probably never left her face.

"She is really beautiful, isn't she?" Porter, beside her, echoed her thought.

"She really is."

During the cocktail-dancing that followed the Benefit Show, Mary danced mostly with Porter. And tried not to hate it. Porter, since his injury, didn't dance well. It was always an ordeal she loathed. Probably he did too. Still, he insisted—as if it were some fierce challenge to his handicap. It was admirable, she supposed, and quite useless to oppose him. Porter made up his mind coolly and logically and then it was hopeless to try to make him change it.

So she was glad to see Dan making his way toward her across the crowded floor.

"She gets more beautiful every minute, doesn't she?" he demanded, thrusting his hand toward Porter.

Porter shook it briefly. "You mean Carmencita? Yes, she's exquisite."

"No, I mean Mary Garthwaite," and turning, Dan looked impatiently down at her, the smile in his blue eyes compelling her own quick glance. "May I have the next dance?"

"Oh, I'm terribly sorry. We were just—" Mary began immediately, furious with him for asking her so belatedly for a dance. And furious with herself for wanting so much to accept!

"Why, certainly," Porter bowed himself out of the picture.

"You're terribly sorry you were just going to do what?" Dan asked as he drew her into the circle of his arm.

Chance Meeting In contrast, Dan danced excellently. Perfect balance, perfect sense of timing, perfect co-ordination—perfect foil for the unsuspecting female. Mary finished and tried to ignore the persistent thrill that was darting about inside, sending quick color to her cheeks. He made her feel like something willowy and winged. She wished she didn't love dancing so—with Dan Sherman.

"We were just going for a walk," she said sharply lest he notice the blush and suspect the thrill.

"A good idea," He stopped abruptly. "It's stuffy in here."

"Oh, never mind. It was Porter's idea, really." Her favorite number from the Hit Parade—wonderful music—

Dan's hand on her arm was firm. "Porter has some wonderful ideas now and then. Come on."

Reluctantly, she let him guide her through the crowd, across the spacious lobby to the great balcony overlooking the arroyo. It was twilight now. The skyline of downtown Santa Philippa was blurred with haze and the wide-throated canyon dropping away below them was deep-shadowed in blues and purples.

Dan's steps quickened as they reached the balcony. And a moment later, Mary saw why! Carmencita de la Vega stood at the far end, looking out over the wide balustrade as intently as if she watched for someone.

"There's your lovely Senorita," Mary said with what was a magnificent show of indifference.

Dan seemed surprised. "Why—so it is—Hello, there."

So it is! Mary mocked with silent joy. Just whom did he think he was fooling!

The Senorita turned then, caught sight of them. In the instant before she flashed her wonderful smile, Mary caught a strange expression—of surprise, annoyance, even more than that. Something furtive about her quick return to charming gaiety. Mary couldn't decide what it was. She tucked it away for future consideration. The little Spanish flower was up to something, she was sure of that.

Mary stood patiently while Dan in his college Spanish managed to ask Carmencita if she would join them in a stroll through the beautiful hotel gardens.

The Senorita declined volubly and even Mary could translate the graceful gestures that begged forgiveness and dramatized her reluctance to go.

She finally fluttered out of sight in the direction of the ballroom and then, as Dan's smile faded and he stood watching after her with obvious disappointment in his eyes, Mary knew exactly how the Borgas must have felt.

"So the little Senorita doesn't always say 'Si, si' to her Senor!" Mary cracked wise as they started down the steps to the formal gardens.

Explosion Dan glanced at her, grave for a moment, then laughing suddenly. "Aren't you right? Why it is I can't get the girls to say 'yes' to me in any language!"

"Maybe if you tried concentrating your powers of charm on just one, you'd have greater success."

"But I am—I do. I fell in love with you before I got my napkin unfolded that very first banquet. Remember?"

"Don't be silly." She arched a smile at him, determined to give as good as he sent. "And when did you fall in love with Carmencita? After the first love song?"

They'd reached the foot of the garden, then. The great stone wall built wide and strong along the

edge of the steep cliffs. Dan turned to face her, crasped her arms, drew her so close she must top her head back to look up at him.

"I love you, Mary Garthwaite. Just you. Nobody else. Understand?"

She didn't answer. She just stood there, her heart knocking at her throat, her eyes searching his face for answer to this strange tenderness, this quick, fierce gravity.

He kissed her then. Until her mouth hurt under his, until her pulses pounded wildly and her whole world dipped sideways.

Then, a moment later, still holding her close but more tenderly now, he whispered, "And you love me, Mary Garthwaite. Ten days from now you'll be my wife—won't you?"

"Ten days from now! The words brought her back to her senses. 'Certainly not!' She pulled free. 'I'm not in love with you, Dan Sherman. I never have been!'"

She forced her voice into control. "Love to me means something fine and strong and dependable that grows gradually out of friendship, out of common interests, common tastes."

Dan winced as if she'd struck him. "What's wrong about saying I love you?"

But the answer wasn't to be given then. Instead, like the low roll of distant thunder, came the sound of an explosion. This time it was the canyon below them. A muffled eruption that was soon lost in the traffic noises on the highway above.

Chapter 13 Stab—in the Back Dan turned as it had been shot, ran along the curving canyon rim toward the sound. Mary, her long skirts fluttering, was not far behind him. A second explosion, louder this time, rumbled just as they came in sight of the great span of the railroad trestle.

"That railroad bridge," Mary gasped. "Could it be—"

It was! As they watched, horrified, a whole section of the concrete ramp crumbled, settled down into the canyon.

For an instant, Mary knew the insane feeling that, as on a motion picture film span backward, the whole crumbling mass of concrete would flow back into solid familiarity again. It wasn't until Dan shouted that she remembered the Streamliner. Yesterday, from the steps of the Mission Santa Philippa, she'd seen that long, swift-flying train pour down out of the foothills, across the narrow coastal valley out onto that trestle. Today—had it gotten across safely already or was it late again!

If it was late—

She had her answer in the next second. The wail of the Streamliner's whistle at the Upper Town crossing. In five minutes or less, it would be on the trestle.

"The train! The Streamliner!" she heard her own voice shrill with panic.

Dan's grasp on her arm, his deep voice steady in her ears. "Where is the nearest flag station? Think! Quick!"

"Clear across the canyon. Where Mission boulevard crosses the tracks."

"Come on! Show me!" Never losing his grip, he broke into a run, half pulling, half guiding her along. After the first few stumbling steps, Mary gathered her full

Coffee Inventory Must Be Filed

Wholesalers and retailers who sell coffee are instructed by OPA to furnish their local War Price and Rationing boards with information concerning their inventories and purchase warrants.

Forms on which non-roasters—wholesaler and retailers—file this information, as well as complete instructions for filling out the forms, are now available at the local boards. Dealers who handle green coffee, as well as coffee roasters, may obtain their forms from State OPA offices.

Sugar and coffee rationing regulations both require a consumer to surrender his War Ration Book One to the owner or manager of a restaurant, boarding house, or similar eating place in which he arranges to eat 14 or more meals a week. The Office of Price Administration said today.

part slowly, almost reluctantly, from each end and drop crashingly into the deep arroyo, terror froze her. For minutes, she just stared at the great empty place in the sky where the spidery steel webbing of the bridge had been.

Then somewhere out of the excited confusion that followed, two facts stalked into her mind to stay. The men who swarmed out of the train were in khaki tan—troops that had missed awful death only by two hundred yards! And secondly—this brought back command of her paralyzed legs—Dan had disappeared!

Running now like a deer, Mary flashed through the gathering crowd, darted past excited policemen trying to check the rush to the canyon's edge.

"Dan! Dan!" she screamed as she ran. "Oh—Dan!" and half-sobbing as she caught sight of him standing on the canyon rim, looking down at the twisted mass of steel below.

"Get back," he shouted instantly, but she flung herself toward him, sobbing hysterically.

He caught her then, shook her smartly. "Stop that! You're not hurt! Everything's under control."

The stern calm of his voice brought her up short. She drew back, forced back her sobs, answered quietly. "Right. I'm sorry. Anything I can do?"

Dan's brief smile was ample reward. "Good girl. Nothing we can do except report our observations to the authorities." He nodded toward a car just now stopping at the tower, unloading officers both Army and local police.

"They should have been here long before"—she began hotly.

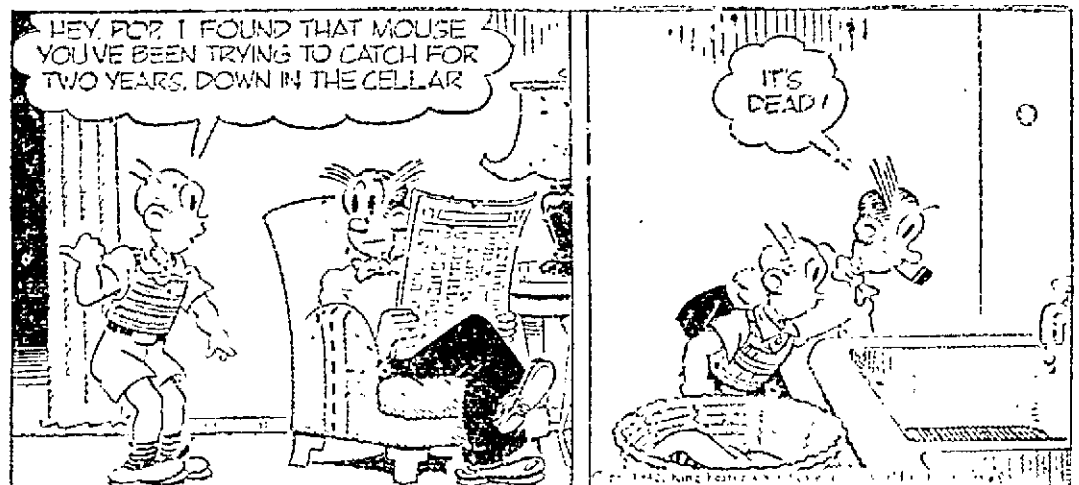

"They were," Dan interrupted and pointed to a heap of jagged concrete below.

Mary followed his gesture and saw then the inert form lying face down against the steep bank. A uniformed man still clutching his gun. Protruding from his back and marked by the slowly spreading brown stain on the soldier's coat was the tell-tale hint of a knife!

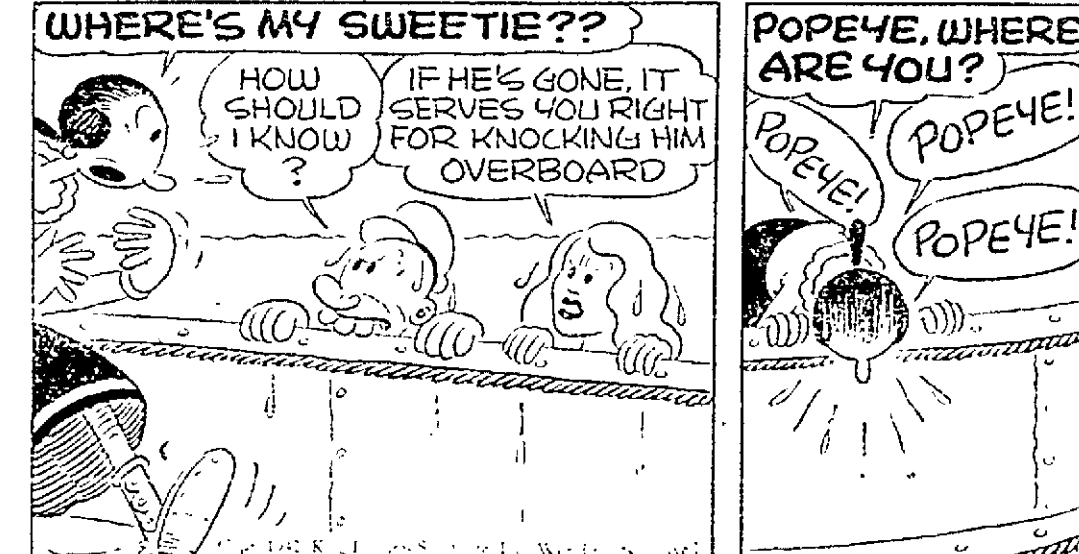

"And there are two more like that up in the flag station," Dan said grimly. "Someone timed this job very nicely. None of these men has been dead long."

Riding with Russell

Reg. U. S. Pat. Off. by FREDERICK C. RUSSELL, Member S. A. E.

A welcome addition to the car for 1943 would be something new at the wheel.

Meaning of that "Fade"

It may be well to note that if the brakes squeal or chatter, and the condition is definitely traced to the lining there will be a marked tendency for the brakes to fade when being used heavily in traffic or on a downgrade. In fact, one way to tell if chatter and noise is a lining condition is this very tendency of such lining to fade. In trying to remedy this condition be careful not to switch to a lining that is too hard. This will result in an annoying condition known to drivers as a "hard pedal."

Now It's a Bond

In previous years January first has been the signal for the family to gather around the dinner table and figure out how the new car is to be financed. This year why not work up some enthusiasm for buying a \$1,000 bond in addition to what is being saved through payroll deductions or otherwise?

It would cost only \$750 and the investment could be financed in several easy ways. You could use collateral for a bank loan. You could break it up into ten \$100 bonds. Arrangement could be worked out with employers to advance the money on mutually favorable terms. In World War I my first Liberty bonds were acquired through arrangement with a building and loan association. The same plan could be adopted now by savings and loan associations.

When I discussed this New Year's resolution with a friend he asked me if I thought money grew on bushes. The whole thing seemed preposterous to him, yet as long as I have known him he has gone into debt to buy a new car every other year. It was always financed at top rates, but without complaint. And there were millions like him.

This year put this same enthusiasm into a big bond to supplement your regular savings. Let it stand for the car this is going to speed up victory.

Keep it in Mind

There's a catch in the comparatively simple job of installing new spark plugs or of replacing the old ones. I refer to whether or not you use new gaskets. The inclination is to assume that old gaskets require that the plugs be drawn down tighter than where new gaskets are used, but actually the reverse is required. For instance, if the plugs are of the small 10 mm. size the first step is to draw the plugs down finger tight. Then, if the gaskets are new, give them an additional half turn. For old gaskets a one-eighth turn is sufficient after drawing the plugs down finger tight. You see, the new gaskets are softer and can be drawn down tighter.

Mechanic Joe Speaking:
"I am particularly annoyed by motorists who believe that if they use the brake excessively and warp the drums it will be a simple matter to remedy the damage. We have machines for cutting stock off drums and can make the drums as true as they ever were, but we really have no way to make old drums as good as new. Once trued they are thinner than before."

"The effect of this is to encourage the revamped drums to heat up and expand. This not only results in less efficient braking but is quite likely to lead to the drums warping all over again. The thinner they are the more likely they are to give trouble again."

It's not too difficult locating transmission bearing trouble if you will try two simple tests. If the front main bearing is worn or noisy you'll get an announcement from it when you have the engine running and are engaging and disengaging the clutch with the car stationary. Test number two is to coast with the gears in neutral, and with the engine switched off. Noise from the transmission under such conditions is likely to be an SOS from the rear main bearing since only it and its shaft are then in operation.

One for the book

You may not recall but an old rule that used to be effective in cleaning dirt from carburetor jets was to run the engine at a car speed of around 25 miles an hour and then close the choke valve. With air choked off the engine sucks gasoline directly through the jets in sufficient quantity to clean them. Thus a little gasoline is used to check a condition that may easily waste a lot of fuel.

Where the car is equipped with an automatic choke it is merely necessary to remove the air cleaner and, with a pencil, press the choke valve to a closed position manually. Some chokes can be closed by moving the arm that attaches to the automatic control.

Keep it in High

Because high gear operation at extremely slow speeds is likely to be a strain on the engine most drivers assume that it is always a waste of motor fuel. This, however, may not be the case. We have to compromise a little to avoid strain and

repair bills, but in general it can be said that you definitely save fuel by keeping in high gear as much as possible. A test made with a popular priced car showed that when the driver stepped on the accelerator in low gear the engine was doing only 2½ miles per gallon of gas. The very best he could do in low, even when taking it very easy, was 9 miles per gallon. All of which easily explains why it pays to get into high below 15 miles per hour when-ever it is possible.

Why Rotate Tires?

Just because it pays dividends in many cases is no reason to assume that you are wasting rubber by not having the tires rotated. Many tire men believe in the rule that there is no point in switching tires around unless there is cause for it. As a matter of fact some of the self-apointed aids to automobilists have already done the rubber conservation cause great harm by encouraging certain losses that follow indiscriminate switching of tires.

The perfect example is the owner who notes that one of the front tires is wearing abnormally and who then switches it to the other front wheel. The better of the two tires then goes on the wheel that reflect some adverse front-end alignment condi-

tion. Its tread wears abnormally before the owner decides to do something about it. More sensible stop would have been to make an alignment test and correction first.

The accent on rotating has found many a driver putting relatively smooth front tires on rear wheels, and switching rougher treads to the front wheels. All this is dangerous and unnecessary. Switching is pointless without a definite need for it. This need is best determined by using a tread depth gauge to study the actual rate of wear and to localize it. Combined with careful inspection this policy will show when rotating is needed, and why.

Care Cleaning Rubber

When grease won't come off tires the natural inclination is to use a little gasoline or kerosene. But watch your step! Either of these cleaning agents is detrimental to rubber. This goes for anything about the car that is fabricated of rubber, including such parts in the hydraulic braking system. The best cleansing agent for rubber is alcohol. But in the case of tires make every effort to let soap and warm water accomplish the job.

Airing Their Car Problems

Q. Is there any way to check a tendency for the car to wander over

the road? I have a feeling of insecurity. Nothing about the steering system seems to be loose. R. E. N.

A. Let your service man check over the steering gear adjustment. The gear should be set so that the high spot is with the front wheels in a straight head position.

Q. I have had several suggestions on how to adjust the fan belt. Just how tight should it be for best results? E. N. L.

A. One thought is that the weight of your hand on a blade of the fan should be just enough to make the fan turn. I like the rule that a belt is just right when it is tight enough to prevent slippage. It is slippage that wears a belt prematurely.

Q. In driving so slowly these days I find that the engine doesn't get warm enough for efficient operation. There is an excessive amount of crankcase dilution, and the valves

are developing a tendency to stick. How can this be checked, if at all? W. B.

A. If there are any hills handy these are most useful for offsetting the inefficiency of low speed operation. On a good grade you can open the throttle wide without going over 35. This will help heat up the engine, burn off diluent, limber up the valves and burn soot from the spark plug points.

Q. Several friends have told me about their experiences with radiator hoses collapsing. Water was shut off as with a closed thermostat. Is there any way to predict when a hose is likely to act that way? H. A.

A. The hose will be squishy if it is getting weak.

Mr. Russell will answer questions regarding the safe care and operation of your car. Just address him care of The Gettysburg Times and enclose stamped, self-addressed envelope for personal reply.

Public war housing which totaled about \$235 million in the first half of this year will approximate \$400 million for the calendar year.

The effect of this is to encourage the worn drums to beat up and expand. This not only results in less efficient braking but is quite likely to lead to the drums warping all over again. The thinner they are the more likely they are to give trouble a car.

Chapter 12 Delayed Answer

She didn't have an opportunity to see Dan Sherman again until the next afternoon at the Soldiers and Sailors' Benefit Show in the Auditorium. Mary was in the Lloyd box, of course, and she searched the packed house for nearly an hour before she saw him. It was during the intermission. A side door opened, a little flutter of applause as the crowd parted to admit first Carmencita de la Vega, star performer, and then—Dan Sherman.

Throughout the entire performance, Dan disappeared. Hovered, Mary supposed, in the draughty stage wings while Carmencita shed the long cape, came out into the spotlight, a lovely white moth in her simple, subtle dinner dress. And like the rest of her enthralled audience, his eyes probably never left her face.

"She is really beautiful, isn't she?" Porter, beside her, echoed her thought.

"She really is." During the cocktail-dancing that followed the Benefit Show, Mary danced mostly with Porter. And tried not to hate it. Porter, since his injury, didn't dance well. It was always an ordeal she loathed. Probably he did too. Still, he insisted—as if it were some fierce challenge to his handicap. It was admirable, she supposed, and quite useless to oppose him. Porter made up his mind coolly and logically and then it was hopeless to try to make him change it.

So she was glad to see Dan making his way toward her across the crowded floor. "She gets more beautiful every minute, doesn't she?" he demanded, thrusting his hand toward Porter. Porter shook it briefly. "You mean Carmencita? Yes, she's exquisite."

"No, I mean Mary Garthwaite," and turning, Dan looked impudently down at her, the smile in his blue eyes impelling her own quick glance. "May I have the next dance?"

"Oh, I'm terribly sorry. We were just—" Mary began immediately, furious with him for asking her so belatedly for a dance. And furious with herself for wanting so much to accept!

"Why, certainly," Porter bowed himself out of the picture. "You're terribly sorry you were just going to do what?" Dan asked as he drew her into the circle of his arm.

Chance Meeting

In contrast, Dan danced excellently. Perfect balance, perfect sense of timing, perfect co-ordination—perfect foil for the unsuspecting female. Mary finished and tried to ignore the persistent thrill that was darting about inside, sending quick color to her cheeks. He made her feel like something willowy and winged. She wished she didn't love dancing so—with Dan Sherman.

"We were just going for a walk," she said sharply lest he notice the blush and suspect the thrill.

"A good idea," He stopped abruptly. "It's stuffy in here."

"Oh, never mind. It was Por-

ter's idea, really." Her favorite number from the Hit Parade—wonderful music—

Dan's hand on her arm was firm. "Porter has some wonderful ideas now and then. Come on."

Reluctantly, she let him guide her through the crowd, across the spacious lobby to the great balcony overlooking the arroyo. It was twilight now. The skyline of downtown Santa Philippa was blurred with haze and the wide-throated canyon dropping away below them was deep-shadowed in blues and purples.

Dan's steps quickened as they reached the balcony. And a moment later, Mary saw why! Carmencita de la Vega stood at the far end, looking out over the wide balustrade as intently as if she watched for someone.

"There's your lovely Senorita," Mary said with what was a magnificent show of indifference.

Dan seemed surprised. "Why—so it is. Hello, there."

So it is! Mary mocked with silent fury. Just whom did he think he was fooling! The Senorita turned then, caught sight of them. In the instant before she flashed her wonderful smile, Mary caught a strange expression—of surprise, annoyance, even more than that. Something furtive about her quick return to charming gaiety. Mary couldn't decide what it was. She tucked it away for future consideration. The little Spanish flower was up to something, she was sure of that.

Mary stood patiently while Dan in his college Spanish managed to ask Carmencita if she would join them in a stroll through the beautiful hotel gardens.

The Senorita declined volubly and even Mary could translate the graceful gestures that begged forgiveness and dramatized her reluctance to go. She finally fluttered out of sight in the direction of the ballroom and then, as Dan's smile faded and he stood watching after her with obvious disappointment in his eyes, Mary knew exactly how the Borgias must have felt.

"So the little Senorita doesn't always say 'Si, si' to her Senor!" Mary cracked wise as they started down the steps to the formal gardens.

Explosion

Dan glanced at her, grave for a moment, then laughing suddenly. "Aren't you right? Why it I can't get the girls to say 'yes' to me in any language!"

"Maybe if you tried concentrating your powers of charm on just one, you'd have greater success."

"But I am—I do. I tell in love with you before I got my napkin unfolded that very first banquet. Remember?"

"Don't be silly," She arched a smile at him, determined to give as good as he sent. "And when did you fall in love with Carmencita? After the first love song?"

They'd reached the foot of the garden, then. The great stone wall built wide and strong along the

edge of the steep cliffs. Dan turned to face her, grasped her arms, drew her so close she must tip her head back to look up at him.

"I love you, Mary Garthwaite. Just you. Nobody else. Understand?"

She didn't answer. She just stood there, her heart knocking at her throat, her eyes searching his face for answer to this strange tenderness, this quick, fierce gravity.

He kissed her then. Until her mouth hurt under his, until her pulses pounded wildly and her whole world dipped sideways.

Then, a moment later, still holding her close but more tenderly now, he whispered, "And you love me, Mary Garthwaite. Ten days from now you'll be my wife—won't you?"

Ten days from now! The words brought her back to her senses. "Certainly not!" She pulled free. "I'm not in love with you, Dan Sherman. I never have been!"

She forced her voice into control. "Love to me means something fine and strong and dependable that grows gradually out of friendship, out of common interests, common tastes."

Dan winced as if she'd struck him. "What's wrong about saying I love you?"

But the answer wasn't to be given then. Instead, like the low roll of distant thunder, came the sound of an explosion. This time it was the canyon below them. A muffled crump that was soon lost in the traffic noises on the highway above.

Chapter 13 Stab—in the Back

Dan turned as if he'd been shot, ran along the curving canyon's rim toward the sound. Mary, her long skirts fluttering, was not far behind him. A second explosion, louder this time, rumbled just as they came in sight of the great span of the railroad trestle.

"That railroad bridge," Mary gasped. "Could it be—"

It was! As they watched, horrified, a whole section of the concrete ramp crumbled, settled down into the canyon.

For an instant, Mary knew the insane feeling that, as on a motion picture film spun backward, the whole crumbling mass of concrete would flow back into solid familiarity again. It wasn't until Dan shouted that she remembered the steps of the Mission Santa Philippa, she'd seen that long, swift-flying train pour down out of the foothills, across the narrow coastal valley out onto that trestle. Today—had it gotten across safely already or was it late again!

If it was late!—She had her answer in the next second. The wall of the Streamliner's whistle at the Upper Town crossing. In five minutes or less, it would be on the trestle.

"The train! The Streamliner!" she heard her own voice shrill with panic. Dan's grasp on her arm, his deep voice steady in her ears. "Where is the nearest flag station? Think! Quick!"

"Clear across the canyon. Where Mission boulevard crosses the tracks."

"Come on! Show me!" Never losing his grip, he broke into a run, half pulling, half guiding her along. After the first few stumbling steps, Mary gathered her full

skirt high, raced to keep up with his long strides.

In the Hotel driveway, a light delivery truck was just turning. Dan left onto the running board, wrenched open the door.

"Take us to Mission flag station. Make it fast!" Dan shouted, thrusting Mary into the seat.

The amazed truck driver took one look at Dan's gold star and stripes, stepped hard on the accelerator. The car plunged out of the drive, into the crowded thoroughfare.

"Faster!" Dan commanded sharply. "It's a matter of life and death! Lots of them! Sound your horn!"

The rasping growl of the truck's horn and Dan waving frantically from his precarious perch on the running board, cleared traffic like a siren's wail. Then two traffic officers appeared from side streets.

Wild tide. "Get us to the Mission crossing. Fast!" Dan shouted.

The officers swung into line ahead of the truck, opened up their sirens. They crossed the arroyo highway bridge at sixty-five miles per hour.

If only they weren't too late! Please God, let us be in time. Mary chanted the prayer over and over as she pressed forward, trying to bring the flag station closer. On the other side of the canyon, streets were deserted. The great warehouses of the wholesale district were dark, sleeping giants. Only an occasional watchman pacing his beat.

The cross streets flicked by as the light delivery truck followed close in the wake of the screaming motorcycles. Two more officers joined the procession and a police car. A fine escort, Mary thought her heart stopped still in her throat, if only they weren't too late!

The high whine of the Streamliner's whistle rushed to meet them now. Clear and very close—too terribly close now.

"Hurry! Oh, hurry—hurry!" "I've got her wide open now," the driver muttered, his hands clenched on the wheel, his body leaning forward as if he too would add the weight of his own anxiety to speed their flight.

Three more blocks. Then two. Mary counted them with her heart. Now only one! The truck took the turn on two wheels, bumped shatteringly across the tracks right to the foot of the signal tower. Half a mile down the track, the Streamliner whistled for the crossing!

They'd made it! Mary found herself laughing while tears slipped down her cheeks. Dan disappeared up the steps and a moment later the great electric signals flashed red. The screech of brakes filled the deepening twilight with ear-splitting chaos for minutes as the great steel monster came to a violent stop. Not two hundred yards from the engine was the shattered ramp.

Dan came down the tower steps two at a time. "Wait there," he shouted and ran down along the tracks toward the trestle.

But even as he disappeared behind freight cars on a siding Mary heard the now-familiar roar of exploding dynamite, rocked with the terrific concussion that seemed to jar the whole world.

Saved by Seconds

When she saw the whole central span of the railway shudder, then

Coffee Inventory Must Be Filed

Wholesalers and retailers who sell coffee are instructed by OPA to furnish their local War Price and Rationing boards with information concerning their inventories and purchase warrants.

Forms on which non-roasters—wholesaler and retailers—file this information, as well as complete instructions for filling out the forms, are now available at the local boards. Dealers who handle green coffee, as well as coffee roasters, may obtain their forms from State OPA offices.

Sugar and coffee rationing regulations both require a consumer to surrender his War Ration Book One to the owner or manager of a restaurant, boarding house, or similar eating place in which he arranges to eat 14 or more meals a week, the Office of Price Administration said today.

part slowly, almost reluctantly, from each end and drop crashingly into the deep arroyo, terror froze her. For minutes, she just stared at the great empty place in the sky where the spidery steel webbing of the bridge had been.

Then somewhere out of the excited confusion that followed, two facts stalked into her mind to stay. The men who swarmed out of the train were in khaki tan—troops that had missed awful death only by two hundred yards! And secondly—this brought back command of her paralyzed legs—Dan had disappeared!

Running now like a deer, Mary flashed through the gathering crowd, darted past excited policemen trying to check the rush to the canyon's edge.

"Dan! Dan!" she screamed as she ran. "Oh—Dan!" and half-sobbing as she caught sight of him standing on the canyon rim, looking down at the twisted mass of steel below. "Get back," he shouted instantly, but she flung herself toward him, sobbing hysterically.

He caught her then, shook her smartly. "Stop that! You're not hurt! Everything's under control."

The stern calm of his voice brought her up short. She drew back, forced back her sobs, answered quietly. "Right. I'm sorry. Anything I can do?"

Dan's brief smile was ample reward. "Good girl. Nothing we can do except report our observations to the authorities." He nodded toward a car just now stopping at the tower, unloading officers both Army and local police.

"They should have been here long before"—she began hotly.

"They were," Dan interrupted and pointed to a heap of jagged concrete below.

Mary followed his gesture and saw then the inert form lying face down against the steep bank. A uniformed man still clutching his gun. Protruding from his back and marked by the slowly spreading brown stain on the soldier's coat was the tell-tale hilt of a knife!

"And there are two more like that up in the flag station," Dan said grimly. "Someone timed this job very nicely. None of these men has been dead long."

Western Maryland Closes Passenger Service Dec. 31st

Eighty-four years and fifteen days ago Thursday the first railway passenger train rolled into the Western Maryland station at Gettysburg. Thursday afternoon at 4 o'clock the last passenger train rolled out of the same station, bound for Baltimore, the last railway passenger run in or out of this historic community.

Unless some unusual circumstance develops Gettysburg will be without railway passenger service on the Western Maryland from now on.

Thursday has been a fateful day in the history of railway passenger service here.

Track laying between New Oxford and Gettysburg for the Western Maryland started on Thursday, June 24, 1858. On Thursday, December 16, 1858 the first Western Maryland passenger train arrived in Gettysburg. On Thursday, November 19, 1863 Abraham Lincoln delivered his immortal Gettysburg address and returned to Washington that same day on a Western Maryland train out of the local station. On Thursday, November 19, 1942 the Public Utility Commission of Pennsylvania approved the railroad's petition requesting permission to abandon service here. And the last passenger train out of here left at 4 o'clock December 31, 1942.

High Officials Here
In Gettysburg for the occasion, marking the abandonment of passenger service were three officials of the Western Maryland. They are Clarence R. Zarfoss, assistant to President Charles W. Brown; George R. Haworth, general superintendent and Howard R. Pratt, chief engineer. These three officials arrived here Thursday in the general manager's private car attached to the regular train arriving at 10:12 a. m.

On hand, among others, to greet them was Charles W. Myers, Western Maryland agent, who Thursday completed 61 years, 7 months and 13 days service.

Mr. Myers is not only the oldest Western Maryland employee in point of service but his record, according to railway officials "is the best and most unique, not only on the Western Maryland but among all other railroads in the country."

High officials of the Western Maryland told The Gettysburg Times that they know of no other railroad employee in the country who has served as many years in the same location for the same company as has Mr. Myers. "This is an enviable record and one that we are mighty proud of," Mr. Zarfoss said.

Mr. Myers will observe his 77th birthday next March 15th. His seniority rights with the Western Maryland date back to May 18, 1861. He was subject to retirement at the age of 65, eleven years ago, but he has declined to even think of retiring and proposes to "stay in harness many more years."

With the abandonment of W.M. passenger service here locomotives and passenger cars used on the run between Gettysburg and Baltimore will go into war service, an official announced. The locomotives will be sent to the Boston and Maine railway company to replace freight locomotives that are now in service on passenger runs. The Boston and Maine company is short of passenger locomotives.

The coaches used on the local run will be turned into the railway pool for use in transporting troops, a shortage of which now exists.

Freight Center
While passenger service ceases here today Gettysburg remains one of the vital freight centers of the Western Maryland, an official stated. More freight passes through the local yards now than ever before in the history of the company. The Times learned from an authoritative source.

Loss of the passenger service is keenly felt by veteran railway men but local citizens, as in other communities along the run, have long ceased to use the service to any great extent.

There was a time when nine passenger trains arrived in and left Gettysburg every day including several fast, through-trains. There was at one time sleeper and pullman service out of this community and there was an occasion when seventeen trains arrived in Gettysburg in one day and carried 13,000 passengers.

\$60,000 to \$24,600
There was a time when passenger revenue totaled \$60,000 per month. But that revenue has dwindled to such an extent in recent years that (Please Turn to Page 2)

12 Passengers And Guinea Pig Use Final Train

WESTERN MARYLAND Railway's No. 45, the last passenger train over its system from Baltimore to Gettysburg, due in Gettysburg at 10:15 o'clock Thursday morning was ten minutes late.

Burgess Fred G. Pfeiffer headed a Gettysburg welcoming committee that was on hand when the train arrived. He extended an official welcome to the Western Maryland officials and offered the courtesies of the town to them, as well as his personal services during their stay here.

Twelve passengers were aboard the train when it stopped in Gettysburg. This is more than the average number of passengers the train has carried in many months, perhaps years.

Only a few Gettysburg citizens were at the station when the train arrived in addition to the customary railway employees who are always at the station when the train arrives.

George C. Dorch, of The Baltimore Sun editorial staff, was with the official party in the general manager's private car attached to the regular train.

E. L. Cook, baggage man on the train, had a "special" passenger in his car Thursday morning. It was a month old guinea pig, his new pet.

Private Retraces Grandfather's Trip On W. Md. In 1860s

Eighty years ago Private Samuel P. Luyster, of the 29th New Jersey Volunteers, Army of the Potomac, mustered out of Civil War service, came through Gettysburg on his way to his home in Matawan, New Jersey, riding a flatcar of the Western Maryland railway. It was the only available transportation at that time.

Thursday morning when the last Western Maryland passenger train to make the run between here and Baltimore arrived in Gettysburg, Private Samuel V. Luyster, of the 59th General Hospital unit, Fort George G. Meade, stepped from the passenger coach. He is a grandson of the Civil War veteran who made the trip eighty years ago on a flatcar.

Private Luyster told a reporter for The Gettysburg Times that he had secured leave from camp to make the trip this morning because he wanted to make the last passenger run on the railroad and he wanted to travel over the same route his grandfather had back in the 1860s.

The World War II soldier said his hobbies were railroads and amateur photography and he spent considerable time taking pictures of the train and, escorted by Burgess Fred G. Pfeiffer, toured the battlefield, taking numerous "shots" of the famous Civil War battlefield here.

41,000 RATION BOOKS RECEIVED

The Adams county War Price and Rationing Board has received today a shipment of 41,000 of the new War Ration Books No. 2 which will follow the present War Ration Book No. 1 now in use for sugar and coffee. The 41,000 will be divided between the two local boards.

The new books, arranged in a variety of colors and with stamps of different values and types, are to be distributed "early in the year."

January 15 has been set as the deadline for registration for Book No. 1. Only persons who hold a No. 1 book will be eligible for Book No. 2 and that book is expected to be used for rationing many articles during the coming year.

Trucker Charged Following Crash

Richard M. Smeltz, Dornisfe, Northumberland county, will be charged with parking his truck improperly by Chief of the Police Glenn Guise as the result of an accident Monday morning about 8:30 o'clock on Carlisle street.

Smeltz parked his truck near the Hotel Gettysburg and went into a restaurant. The truck coasted downstreet striking the parked machine of Paul B. Ramer, Buford avenue, and forcing it against the parked machine of John P. Butt, Esq., Hotel Gettysburg annex. Damage to the Ramer car was estimated at about \$15.

LIEUT. BARTON, HOME ON LEAVE, LAUDS WAACS

Lt. Virginia A. Barton, daughter of Col. and Mrs. J. L. Barton, West Broadway, first Adams county to be commissioned in the Woman's Auxiliary Army Corps (WAAC), arrived home Tuesday on a ten-day furlough from Fort Des Moines, Iowa.

Lieutenant Barton was commissioned in the tenth graduating group at Fort Des Moines, a class of 123, on December 24. This class was the first group of WAACs to be commissioned from the ranks. Brigadier General Luther S. Smith, of the U. S. Air Corps, delivered the address and awarded the commissions.

Vigorous Training
Entering the WAAC service on September 14, Miss Barton was one of a large group of young women to be put through a vigorous basic training course at the Iowa school. On October 10, after completing her basic training, she was one of 25 girls to be selected for admission to the Officers' Candidate school.

"I'm sincerely enthused about our organization and our work and I would like to interest other girls between the ages of 21 and 45 to make application for admission," Lieutenant Barton told a reporter for The Gettysburg Times.

"I do not recruit girls but I will be glad to give any one interested all the necessary information. Our organization seeks more prospective candidates and I feel that we can play a vital part in the war effort," continued the officer.

Similar to Men's Course
She explained that the training course at Fort Des Moines is a vigorous one and is identical almost with that given men except that the obstacle course, the 20-mile hikes and rifle range firing are omitted from the WAAC course.

The daily routine of a WAAC during her training period follows:

6:00 a. m.—Reveille.
6:35 a. m.—Formation. A check of the roster, etc.

6:45 a. m.—Breakfast. The period from after breakfast until 8 a. m. is devoted to the making of beds, sweeping, dusting and general housework in the WAAC's room.

8:00 a. m.—Inspection. (Inspection hours continue until 4:30 p. m.)
8:00 a. m.—Close order drill.

Extensive Classes
"9 to 12 noon—Classes on military hygiene, sanitation and first aid; map reading; defense against chemical attack; organization of the Army and the WAAC; care of the uniform and equipment; military customs and courtesies; defense against air attack.

12 noon to 1 p. m.—Mess.
1 to 4 p. m.—Class work, similar to morning sessions. Candidates march to and from all classes.

Peace And Blessedness

By ABDEL ROSS WENTZ
President Of The Seminary

THE year through which we have just passed was a year of transition. It carried us all the way from 1941 to 1943. And that is a great distance. The year that we face now will be very different from 1941. The old has gone, the new has come. Much has been achieved, but much more remains to be done.

DR. WENTZ

If war were to cease tomorrow and all our soldiers and sailors were to return at once to their homes and to their former occupations, if all our vast factories were to be converted in a day to peacetime industries, it would be found that during the past two years the world has made more progress in the technical sciences than it made during a whole generation preceding. We have gone far since 1941. The same is true in political and social affairs. We are making tremendous strides forward.

SOMETIMES the price seems high. The old routine in which we were so comfortable has been shattered to bits. We are laid under all kinds of restrictions. In what we eat and drink and wear, in our way of travelling, in our schedule of work and place of occupation, in the manner and amount of our leisure, and in scores of other ways, we are placed under rules and regulations and rationings to which we are not accustomed. We are separated from our sons and brothers, our husbands and sweethearts, and other loved ones. We do not know where they are and we sometimes fear for their safety. Our dollar has shrunk, and all our fine plans for the long future are torn to shreds.

But every real American will keep his chin up. None of us will complain about his lot. We will think of our men at the front. Their hardships and dangers make our restrictions and uncertainties appear ridiculously mild. For their sake we will keep quiet about our puny sacrifices and will help with all our might to pull the nation's load.

WE WILL think of the hundreds of millions in the lands under Hitler's heel who are in unspeakable bondage and daily on the verge of actual starvation. If we do not help, they will perish.

We will think of the consequences we should have to endure if we do not win this war. All the efforts of our fathers and all the gains of American history would be lost.

We will think of the new and better world which we hope to create through our victory in this great struggle. It is something for which future generations will arise and call us blessed.

The more we cheer and the less we complain in 1943, the happier and stronger will be our friends at the front. The harder we work and the more cordially we cooperate, the sooner will peace return.

Let us hope that this new year will bring the end of hostilities and the return to peace. There is good reason now for such a hope. But whether peace among the nations comes this year or is further postponed, we can make the new year of 1943 a year of inner peace and blessedness, a year of real service to the cause of righteousness, and a year of genuine fellowship across land and sea. Then, come what may, God's rich blessing will attend us and all who are ours.

COUNTY NEARS ANOTHER BOND MONTH RECORD

The December quota of \$96,000 in war bonds for Adams county passed the half way mark during the second quarter of the month, the Third Federal Reserve District informed Edmund W. Thomas, chairman of the county committee, today.

During the second quarter county bonds purchased \$30,093 worth of war bonds. During the first quarter sales in this county totaled \$27,513, making a grand total for the first half of the month of \$57,606. This leaves \$38,394 worth of bonds to be sold during the second half of the month, reports for which have not been tabulated by the Philadelphia headquarters.

"I feel confident that our good residents will have again exceeded our quota for December," Mr. Thomas said. "There is no way in which I can secure these figures until they are tabulated finally and re-checked. However, the Third Federal Reserve District telephones me as soon as they have the final compilation at which time I will release the figures for publication.

"All I can add is that Uncle Sam need not worry about what Adams county will do to help our war effort. If every county in the country could measure up to our good people the government could sit back and merely await final returns. Adams county will never be found wanting," Mr. Thomas concluded.

ESTATE BOND SET

The administration bond in the estate of the late Gertrude Tawney, of Gettysburg, has been filed at the court house by William McG. Tawney, Gettysburg, the administrator.

MOTORISTS CAN SELECT 1 OF 3 TYPES OF CASING

Motorists who get rationing certificates under the mileage rationing plan, entitling them to buy Grade III tires may choose between any of the three kinds of casing in that grade, used tires, recapped tires, and tires made of reclaimed rubber, the Office of Price Administration said today.

This was pointed out because some dealers apparently are of the belief that they are not permitted to sell used tires under any circumstances. The fact is, O.P.A. explained:

"They may sell them to any holder of a Grade III certificate. Similarly, the holder of a certificate authorizing purchase of a Grade II tire may buy any in that category, which includes casings with a retail ceiling price less than 85 per cent of the price for a standard first line tire, all new tires manufactured before January 1, 1938. 'Factory Seconds' so marked by the manufacturer, damaged new tires, and tires that have gone less than 1,000 miles but enough to wear off the mold marks.

"Motorists granted Grade I certificates may buy any new tire whose ceiling price is 85 per cent or more of the maximum for a standard first line casing. If they wish, they may buy Grade I tires.

"A Grade I or Grade II certificate holder, however, is not permitted to buy a Grade III tire, but if either wishes to buy one of the lowest grade, he may go to his War Price and Rationing Board and exchange the certificate he holds for one entitling him to buy a Grade II casing."

Local Man Faces 6th Code Charge

Another charge—the sixth following the defendant's arrest on November 25—has been filed against Harold Patterson, Gettysburg, by Borough Office Horace L. Bender before Justice of the Peace John H. Bosshart.

The new charge is that of operating a car without the permission of the owner. The warrant was served on him in jail where he is being held in default of bond on a charge of turning out his lights to avoid identification. Five hundred dollars was added to the amount of Patterson's bond. Previously he served jail terms on four summary charges for which he was unable to pay the fines.

\$5,000 DAMAGE TO TRUCK IN BRIDGE MISHAP

A New Cumberland trucker had a narrow escape from death this morning when the big truck tractor and trailer he was driving struck a bridge wall, leaped a stream and then pinned him in the icy, rising waters of Muddy run for more than two hours before he was rescued by two colored drivers of coal trucks who stopped to inspect the wreckage.

Donald Sipe, 42, New Cumberland, apparently dozed at the wheel of the big diesel-powered truck he was driving from Richmond to Harrisburg loaded with 8 tons of rayon. The right side of the tractor clipped the Muddy run bridge wall and then the big truck leaped 20 feet across the stream into a field of Edgar Leer, three miles south of York Springs on the Hanover Pike.

The tractor turned on its side in the leap and when it struck the ground the heavily loaded trailer crushed the cab and tractor. Sipe was trapped as he attempted to jump clear of the cab. His legs were pinned in the wrecked cab and he sank into about 10 inches of water in Muddy run.

Private John M. Micka, of the Gettysburg detail of the state motor police, investigated the accident. He estimated the damage to the 1942 model tractor at about \$5,000. There was no damage to the cargo, he said, but all of the wheels under the tractor and trailer were ripped off in the accident. Wheels, tires and axles were scattered along the highway for a distance of 50 feet, the officer said.

Sipe escaped with bruises and a cut on the forehead. He was treated by a doctor at New Cumberland. Another truck was sent to the scene and the cargo was transferred to it.

TEACHER CHOSEN FOR FIRST GRADE

When the public schools here reopen on Monday, Gettysburg school directors expect that Miss Martha Hindman, Johnstown, a member of the mid-year graduating class at the Indiana State Teachers' college will report for duty here to fill the vacancy caused by the recent resignation of the former Miss Helen Conover as first grade teacher at the High street school building.

Miss Hindman was elected by the local board at a special meeting with the hope that she will be released from college classes several weeks in advance of her graduation date so that she may begin teaching here when the schools open for 1943.

Her salary was fixed at the minimum for grade school teachers—\$1,000 a year. She has not yet notified the local board of her acceptance.

Since the post has been vacant, Mrs. George Forney has been serving as a substitute.

Just before the Christmas holidays, John P. "Jack" Cessna began his teaching duties as instructor in physics and general science at the high school. He fills a position made vacant by a shift in the science and math departments after the resignation of C. Russell Gilbert in the fall.

G. L. Bream Employees Given \$1,600 In Bonds

Duplicating gifts distributed on the firm's tenth anniversary on October 10, Glenn L. Bream, Inc., gave more than \$1,600 in war bonds and stamps and cash to the company's 17 employees on Thursday.

The Christmas bonuses were distributed on the basis of seniority with 13 persons who worked for the firm for more than a year receiving a \$100 war bond each; three others receiving \$25 bonds and \$30 in stamps and \$200 in cash to other employees.

Mother And 2 Children Are Hit By Train

Automobile Stalls On Tracks Near Orrtanna Early Monday Morning; Passengers Are Hurlled From Machine; Wreckage Carried Five Hundred Feet

Plunged from their car as it was struck by a Western Maryland work train on the Cold Springs road crossing two miles west of Orrtanna Monday morning, Mrs. Carl Carey, 32, and her two young sons, George, aged six years, and Carl Allen, Jr., aged three, are in the Warner hospital in a critical condition.

The accident occurred about 8:30 o'clock while Mrs. Carey was taking George and Janet, aged nine, to meet a Hamiltonban township school bus at the Orrtanna road.

Stalled On Tracks

The car stalled on the tracks within sight of the Carey home. Only Janet escaped from the machine before the 12-car train bore down on the car in the fog, tossed the mother and two younger children to the north side of the track and carried the smashed auto 500 feet down the track before coming to a stop.

The mother, Mrs. Marian Carey, is suffering greatly from shock, possible fracture of the skull, dislocated right shoulder, lacerations of the forehead, right side of the face, right thigh and injuries to her feet that may involve fractures.

Boy Seriously Injured

George also has a possible fracture of the skull and cuts on the forehead. Carl, Jr., probably the most seriously injured of the three has a fracture of the skull and lacerations of the scalp.

So far as investigators could learn there were no eye-witnesses to the crash.

Janet Escapes Crash
Janet Carey said that the motor of their car choked on the track and her mother ordered the children to "get out." Janet was able to escape from the two-door car while her mother took Carl, Jr., in her arms. George was clambering from the rear seat of the car when the locomotive struck. Mrs. Carey either was standing on the running board or was on the ground but in any event was not clear of the machine.

The impact of the collision threw the mother and her youngest son, Carl, to the left side of the tracks about 15 feet from the point where the car had stood. George was tossed out of the car to the same side of the tracks and lay about 50 feet from the point of the collision.

The car either slid along the rails or was carried on the front of the locomotive to the point where the train came to a stop.

Shouted Warning
Although Mr. Carey and several other men were nearby, none saw the crash. Carey said he heard the train whistle blowing "way up the track" as his wife drove off. He shouted a warning to her to watch out for the train but she was too far away to hear his voice.

It was only by chance that the Carey car did not contain another passenger Monday morning for Mrs. Carey had stopped at the home of Mr. and Mrs. B. E. Benner, at the crossing, to take John David Benner, 12, along to meet the school bus but John had made arrangements with his father to ride with him to meet the bus when Mr. Benner drove that way on an errand.

Mr. Carey is employed by Mr. Benner and lives in a house close to the Benner home. Mrs. Benner said today that usually the Carey and Benner children walk to school together but because it was foggy and rainy this morning, Mrs. Carey had decided to take the children in the car.

Probes Accident
Detective Milton R. Tipton went to the scene to investigate the accident for the Western Maryland railroad. He reported that the name of the engineer on the work train was Mr. Miner while the conductor was named Hoover.

After giving their names to the detective the train crew proceeded eastward and went through here to a destination that was not made known. The train had come out of Hagerstown.

Dr. Ira Henderson, Fairfield, was called to the scene of the accident and later the Adams county ambulance reached the crossing and brought the three injured persons to the hospital here.

Spence Marks Accepts Royersford Position
Spence Marks, son of Mrs. Fannie S. Marks, Gettysburg, has accepted the position of teacher of science in the Royersford high school. He will begin his duties there on January 4 at a salary of \$1,900 a year.

For the last six years Mr. Marks taught science in the Barrett township high school at Cresco, Pa. He graduated from Gettysburg college in the class of 1932.

Mr. Marks and his wife and 11-year-old son will move to Royersford.

Duplicating gifts distributed on the firm's tenth anniversary on October 10, Glenn L. Bream, Inc., gave more than \$1,600 in war bonds and stamps and cash to the company's 17 employees on Thursday.

The Christmas bonuses were distributed on the basis of seniority with 13 persons who worked for the firm for more than a year receiving a \$100 war bond each; three others receiving \$25 bonds and \$30 in stamps and \$200 in cash to other employees.

R.C. STRESSED PRODUCTION IN '42 ACTIVITIES

(Continued From Page 1)

production program in 1942 to meet heavy quotas assigned by national Red Cross headquarters.

The Red Cross office supplied this statistical picture of the 1942 production achievements: Army sweaters, 185; Navy sweaters, 200; Navy helmets, 67; Navy watch caps, 30; Army mullers, 35; Army socks, 80 pairs; men's pajamas, 378; men's convalescent robes, 192; women's dresses, 98; women's skirts, 174; women's bed jackets, eight; girls' dresses, 363; girls' skirts, 356; girls' flannel caps, 145; boys' shirts, 161; boys' overalls, 84; toddlers' packs, 121; layettes, 73; baby crib comforters, nine; baby sacks, 15; woolen lap covers, 21; men's sweaters, 169; women's sweaters, 282; children's sweaters, 940; children's knitted suits, 129; shawls, 44; afghans, three; bed pan covers, 25; card table covers, five; bedside bags, 46; utility bags, 11; and 25 "housewives." The tabulation covers only articles already shipped.

In addition to this there are 25 layettes ready to ship and a large number of other garments for hospital and civilian use that are finished and will be shipped as soon as the chapter receives notification concerning the destination.

Volunteer groups now are sewing on Red Cross materials in Gettysburg where two centers are operating: in Biglerville, Littlestown, New Oxford, Arendtsville, two rural communities near Gettysburg, and Cash-town. Earlier in the year production groups worked also at Fairfield and East Berlin.

The service kit group has shipped 350 completed kits and has 95 more that are completed and ready to ship. More will be made as soon as materials are secured. The committee has collected more than \$500 to pay for the articles to be used in filling the kits.

The Red Cross conducted 23 classes in the standard first aid course and 413 certificates were issued to the students. Seven advanced courses were held and 91 certificates issued. Five classes in junior first aid work were run and pupils were issued 134 certificates. Other classes are now in progress.

Instructors' Course

In April the first aid instructors' course was given by O. G. Sola from eastern headquarters and 41 were certified as first aid teachers. Since then classes have been held in Arendtsville, Abbotstown, Centennial, Gettysburg, Idaville, Littlestown, McSherrystown, New Oxford and York Springs with 213 standard and 20 advanced certificates issued.

One big job the first aid staff of the Red Cross is working on now is the furnishing of at least 10 hours of first aid training to Civilian Defense corps members.

No division of the Red Cross work for the Adams county chapter showed such an increase as the home service department. The average volume of home service requests—both from men in the service and from civilians—increased many fold. Two hundred and six soldiers or sailors or their families called upon the county chapter for some type of service last year. Seventy-four ex-service men or their families were served and there were 144 civilian cases.

Courses in home nursing were conducted in 11 county towns for adults and in three school systems in the county and at Gettysburg college under Red Cross supervision and instruction.

Home Nursing Classes

Biglerville, Abbotstown, McSherrystown, Arendtsville (two classes), Littlestown, Cashtown, St. Joseph's academy at McSherrystown, Benderville, New Oxford (two classes), York Springs, East Berlin and Gettysburg held home nursing classes in which adults enrolled to the number of 337. Other classes were held in the Gettysburg schools with 77 students enrolled: in the Fairfield schools with 11 pupils and at Gettysburg college with five students.

Classes in home nursing now are in progress in several parts of the county but enrollment figures have not been reported to the chapter office.

Two classes in training of nurses' aides have been completed and have graduated 12 women who are ready to or are already serving at the Warner hospital or in connection with the Civilian Defense program.

All schools in the county—including 227 grade and 10 high schools and one kindergarten—enrolled 100 per cent in the Junior

Red Cross in Adams county last year.

Already \$295.98 has been collected in Junior memberships with an additional \$50 or more yet to be turned in. Of the total sum, \$118.50 has been sent to national headquarters at Washington for enrollment and to bring regular copies of the Junior News and Journal to the county members.

Gifts Prepared

At Christmas time the Junior Red Cross made thousands of joke books, coloring books, stuffed toys, dolls, calendar favors, greetings and numerous other articles which were distributed to these institutions: Hoffman orphanage, the Warner hospital, the county jail, the county home, the Crippled Children's hospital at Elizabethtown, Sylvan Heights orphanage at Harrisburg, Paradise Protectors, Scotland orphan school, Quincy orphanage and the Tressler Orphans' home at Lowsville. In addition 150 joke books were shipped to the U. S. Naval hospital at Portsmouth, Virginia; Fort Benning Georgia, and Fort Bragg, North Carolina.

Jars of candy and cleverly made ash trays were given to L. D. Strader, Red Cross field director at Carlisle Barracks, to be delivered to Camp Ritchie, Maryland. Forty wooden "cut-outs" were sent to St. Mary's school for the blind at Lansdale.

The work of the Junior Red Cross in many instances is combined with the regular school work in art or home economics classes. At Biglerville, Arendtsville and New Oxford high schools, home economics departments are busy with Red Cross sewing and pupils at the Lincoln school building here are knitting Red Cross sweaters.

Some of the money raised through Junior memberships in the county each year is used to buy glasses for children in the county who cannot buy them for themselves.

Western Maryland Closes Passenger Service Dec. 31st

Eighty-four years and fifteen days ago Thursday the first railway passenger train rolled into the Western Maryland station at Gettysburg. Thursday afternoon at 4 o'clock the last passenger train rolled out of the same station, bound for Baltimore, the last railway passenger run in or out of this historic community.

12 Passengers And Guinea Pig Use Final Train

WESTERN MARYLAND Railway's No. 45, the last passenger train over its system from Baltimore to Gettysburg, due in Gettysburg at 10:15 o'clock Thursday morning was ten minutes late.

Burgess Fred G. Pfeffer headed a Gettysburg welcoming committee that was on hand when the train arrived. He extended an official welcome to the Western Maryland officials and offered the courtesies of the town to them, as well as his personal services during their stay here.

Twelve passengers were aboard the train when it stopped in Gettysburg. This is more than the average number of passengers the train has carried in many months, perhaps years.

Only a few Gettysburg citizens were at the station when the train arrived in addition to the customary railway employees who are always at the station when the train arrives.

George C. Dorch, of The Baltimore Sun editorial staff, was with the official party in the general manager's private car attached to the regular train.

E. L. Cook, baggageman on the train, had a "special" passenger in his car Thursday morning. It was a month old guinea pig, his new pet.

Private Retraces Grandfather's Trip On W. Md. In 1860s

Eighty years ago Private Samuel P. Luyster, of the 29th New Jersey Volunteers, Army of the Potomac, mustered out of Civil War service, came through Gettysburg on his way to his home in Matawan, New Jersey, riding a flatcar of the Western Maryland railway. It was the only available transportation at that time.

Thursday morning when the last Western Maryland passenger train to make the run between here and Baltimore arrived in Gettysburg, Private Samuel V. Luyster, of the 59th General Hospital unit, Fort George G. Meade, stepped from the passenger coach. He is a grandson of the Civil War veteran who made the trip eighty years ago on a flatcar.

Private Luyster told a reporter for The Gettysburg Times that he had secured leave from camp to make the trip this morning because he wanted to make the last passenger run on the railroad and he wanted to travel over the same route his grandfather had back in the 1860s.

The World War II soldier said his hobbies were railroads and amateur photography and he spent considerable time taking pictures of the train and, escorted by Burgess Fred G. Pfeffer, toured the battlefield, taking numerous "shots" of the famous Civil War battlefield here.

The coaches used on the local run will be turned into the railway pool for use in transporting troops, a shortage of which now exists.

Freight Center

While passenger service ceases here today Gettysburg remains one of the vital freight centers of the Western Maryland, an official stated. More freight passes through the local yards now than ever before in the history of the company. The Times learned from an authoritative source.

Loss of the passenger service is keenly felt by veteran railway men but local citizens, as in other communities along the run, have long ceased to use the service to any great extent.

There was a time when nine passenger trains arrived in and left Gettysburg every day including several fast, through-trains. There was at one time sleeper and pullman service out of this community and there was an occasion when seven passenger trains arrived in Gettysburg in one day and carried 13,000 passengers.

\$60,000 to \$24,600

There was a time when passenger revenue totaled \$60,000 per month. But that revenue has dwindled to such an extent in recent years that

Trucker Charged Following Crash

Richard M. Smeltz, Dornisfe, Northumberland county, will be charged with parking his truck improperly by Chief of the Police Glenn Guise as the result of an accident Monday morning about 8:30 o'clock on Carlisle street.

Smeltz parked his truck near the Hotel Gettysburg and went into a restaurant. The truck coasted downstreet striking the parked machine of Paul B. Ramer, Buford avenue, and forcing it against the parked machine of John P. Butt, Esq., Hotel Gettysburg annex. Damage to the Ramer car was estimated at about \$15.

LIEUT. BARTON, HOME ON LEAVE, LAUDS WAACS

Lt. Virginia A. Barton, daughter of Col. and Mrs. J. L. Barton, West Broadway, first Adams county to be commissioned in the Woman's Auxiliary Army Corps (WAAC), arrived home Tuesday on a ten-day furlough from Fort Des Moines, Iowa.

Lieutenant Barton was commissioned in the tenth graduating group at Fort Des Moines. A class of 123, on December 24. This class was the first group of WAACs to be commissioned from the ranks. Brigadier General Luther S. Smith, of the U. S. Air Corps, delivered the address and awarded the commissions.

Vigorous Training

Entering the WAAC service on September 14, Miss Barton was one of a large group of young women to be put through a vigorous basic training course at the Iowa school. On October 10, after completing her basic training, she was one of 25 girls to be selected for admission to the Officers' Candidate school.

"I'm sincerely enthused about our organization and our work and I would like to interest other girls between the ages of 21 and 45 to make application for admission," Lieutenant Barton told a reporter for The Gettysburg Times.

"I do not recruit girls but I will be glad to give any one interested all the necessary information. Our organization seeks more prospective candidates and I feel that we can play a vital part in the war effort," continued the officer.

Similar to Men's Course

She explained that the training course at Fort Des Moines is a vigorous one and is identical almost with that given men except that the obstacle course, the 20-mile hikes and rifle range firing are omitted from the WAAC course.

The daily routine of a WAAC during her training period follows:

6:00 a. m.—Reveille.
6:35 a. m.—Formation. A check of the roster, etc.
6:45 a. m.—Breakfast. The period from after breakfast until 8 a. m. is devoted to the making of beds, sweeping, dusting and general housework in the WAAC's room.

8:00 a. m.—Inspection. (Inspection hours continue until 4:30 p. m.)
8:00 a. m.—Close order drill.

Extensive Classes

9 to 12 noon—Classes on military hygiene, sanitation and first aid; map reading; defense against chemical attack; organization of the Army and the WAAC; care of the uniform and equipment; military customs and courtesies; defense against air attack.

12 noon to 1 p. m.—Mess.
1 to 4 p. m.—Class work, similar to morning sessions. Candidates march to and from all classes.

38 RECEIVE WELFARE GIFTS

Thirty-eight boys and girls who are under the care or supervision of the Adams County Child Welfare society had their Christmas brightened by the gifts of toys and new clothing distributed to them at their homes and foster homes by Mrs. Marian Sheridan, temporary secretary for the county organization.

Members of the advisory committee of the society distributed the names of the 38 children among church and community organizations in various sections of the county and those groups supplied the gifts.

Peace And Blessedness

By ABDEL ROSS WENTZ
President Of The Seminary

THE year through which we have just passed was a year of transition. It carried us all the way from 1941 to 1943. And that is a great distance. The year that we face now will be very different from 1941. The old has gone, the new has come. Much has been achieved, but much more remains to be done.

DR. WENTZ

If war were to cease tomorrow and all our soldiers and sailors were to return at once to their homes and to their former occupations, if all our vast factories were to be converted in a day to peacetime industries, it would be found that during the past two years the world has made more progress in the technical sciences than it made during a whole generation preceding. We have gone far since 1941. The same is true in political and social affairs. We are making tremendous strides forward.

SOMETIMES the price seems high. The old routine in which we were so comfortable has been shattered to bits. We are laid under all kinds of restrictions. In what we eat and drink and wear, in our way of traveling, in our schedule of work and place of occupation, in the manner and amount of our leisure, and in scores of other ways, we are placed under rules and regulations and rationings to which we are not accustomed. We are separated from our sons and brothers, our husbands and sweethearts, and other loved ones. We do not know where they are and we sometimes fear for their safety. Our dollar has shrunk, and all our fine plans for the long future are torn to shreds.

But every real American will keep his chin up. None of us will complain about his lot. We will think of our men at the front. Their hardships and dangers make our restrictions and uncertainties appear ridiculously mild. For their sake we will keep quiet about our puny sacrifices and will help with all our might to pull the nation's load.

WE WILL think of the hundreds of millions in the lands under Hitler's heel who are in unspeakable bondage and daily on the verge of actual starvation. If we do not help, they will perish.

We will think of the consequences we should have to endure if we do not win this war. All the efforts of our fathers and all the gains of American history would be lost.

We will think of the new and better world which we hope to create through our victory in this great struggle. It is something for which future generations will arise and call us blessed.

The more we cheer and the less we complain in 1943, the happier and stronger will be our friends at the front. The harder we work and the more cordially we cooperate, the sooner will peace return.

Let us hope that this new year will bring the end of hostilities and the return to peace. There is good reason now for such a hope. But whether peace among the nations comes this year or is further postponed, we can make the new year of 1943 a year of inner peace and blessedness, a year of real service to the cause of righteousness, and a year of genuine fellowship across land and sea. Then, come what may, God's rich blessing will attend us and all who are ours.

COUNTY NEARS ANOTHER BOND MONTH RECORD

The December quota of \$96,000 in war bonds for Adams county passed the half way mark during the second quarter of the month, the Third Federal Reserve District informed Edmund W. Thomas, chairman of the county committee, today.

During the second quarter countians purchased \$30,093 worth of war bonds. During the first quarter sales in this county totaled \$27,543, making a grand total for the first half of the month of \$57,636. This leaves \$38,364 worth of bonds to be sold during the second half of the month, reports for which have not been tabulated by the Philadelphia headquarters.

"I feel confident that our good residents will have again exceeded our quota for December," Mr. Thomas said. "There is no way in which I can secure these figures until they are tabulated finally and re-checked. However, the Third Federal Reserve District telephones me as soon as they have the final compilation at which time I will release the figures for publication."

"All I can add is that Uncle Sam need not worry about what Adams county will do to help our war effort. If every county in the country could measure up to our good people the government could sit back and merely await final returns. Adams county will never be found wanting," Mr. Thomas concluded.

ESTATE BOND SET

The administration bond in the estate of the late Gertrude Tawney, of Gettysburg, has been filed at the court house by William McG. Tawney, Gettysburg, the administrator.

Local Man Faces 6th Code Charge

Another charge—the sixth following the defendant's arrest on November 25—has been filed against Harold Patterson, Gettysburg, by Borough Office Horace L. Bender before Justice of the Peace John H. Baschore.

The new charge is that of operating a car without the permission of the owner. The warrant was served on him in jail where he is being held in default of bond on a charge of turning out his lights to avoid identification. Five hundred dollars was added to the amount of Patterson's bond. Previously he served jail terms on four summary charges for which he was unable to pay the fines.

\$5,000 DAMAGE TO TRUCK IN BRIDGE MISHAP

A New Cumberland trucker had a narrow escape from death this morning when the big truck tractor and trailer he was driving struck a bridge wall, leaped a stream and then pinned him in the icy, rising waters of Muddy run for more than two hours before he was rescued by two colored drivers of coal trucks who stopped to inspect the wreckage.

Donald Sipe, 42, New Cumberland, apparently dozed at the wheel of the big diesel-powered truck he was driving from Richmond to Harrisburg loaded with 8 tons of rayon. The right side of the tractor clipped the Muddy run bridge wall and then the big truck leaped 20 feet across the stream into a field of Edgar Leer, three miles south of York Springs on the Hanover Pike.

The tractor turned on its side in the leap and when it struck the ground the heavily loaded trailer crushed the cab and tractor. Sipe was trapped as he attempted to jump clear of the cab. His legs were pinned in the wrecked cab and he sank into about 10 inches of water in Muddy run.

Private John M. Micks, of the Gettysburg detail of the state motor police, investigated the accident. He estimated the damage to the 1942 model tractor at about \$5,000. There was no damage to the cargo, he said, but all of the wheels under the tractor and trailer were ripped off in the accident. Wheels, tires and axles were scattered along the highway for a distance of 50 feet, the officer said.

Sipe escaped with bruises and a cut on the forehead. He was treated by a doctor at New Cumberland. Another truck was sent to the scene and the cargo was transferred to it.

TEACHER CHOSEN FOR FIRST GRADE

When the public schools here re-open on Monday, Gettysburg school directors expect that Miss Martha Hindman, Johnstown, a member of the mid-year graduating class at the Indiana State Teachers' college will report for duty here to fill the vacancy caused by the recent resignation of the former Miss Helen Conover as first grade teacher at the High Street school building.

Miss Hindman was elected by the local board at a special meeting with the hope that she will be released from college classes several weeks in advance of her graduation date so that she may begin teaching here when the schools open for 1943.

Her salary was fixed at the minimum for grade school teachers—\$1,000 a year. She has not yet notified the local board of her acceptance.

Since the post has been vacant, Mrs. George Forney has been serving as a substitute.

Just before the Christmas holidays, John P. "Jack" Cessna began his teaching duties as instructor in physics and general science at the high school. He fills a position made vacant by a shift in the science and math departments after the resignation of C. Russell Gilbert in the fall.

Mother And 2 Children Are Hit By Train

Automobile Stalls On Tracks Near Orrtanna
Early Monday Morning; Passengers Are Hurlled From Machine; Wreckage Carried Five Hundred Feet

Flung from their car as it was struck by a Western Maryland work train on the Cold Springs road crossing two miles west of Orrtanna Monday morning, Mrs. Carl Carey, 32, and her two young sons, George, aged six years, and Carl Allen, Jr., aged three, are in the Warner hospital in a critical condition.

The accident occurred about 8:30 o'clock while Mrs. Carey was taking George and Janet, aged nine, to meet a Hamiltonban township school bus at the Orrtanna road.

Stalled On Tracks

The car stalled on the tracks within sight of the Carey home. Only Janet escaped from the machine before the 12-car train bore down on the car in the fog, tossed the mother and two younger children to the north side of the track and carried the smashed auto 500 feet down the track before coming to a stop.

The mother, Mrs. Marian Carey, is suffering greatly from shock, possible fracture of the skull, dislocated right shoulder, lacerations of the forehead, right side of the face, right thigh and injuries to her feet that may involve fractures.

Boy Seriously Injured

George also has a possible fracture of the skull and cuts on the forehead. Carl, Jr., probably the most seriously injured of the three has a fracture of the skull and lacerations of the scalp.

So far as investigators could learn there were no eye-witnesses to the crash.

Janet Escapes Crash

Janet Carey said that the motor of their car choked on the track and her mother ordered the children to "get out." Janet was able to escape from the two-door car while her mother took Carl, Jr., in her arms. George was clambering from the rear seat of the car when the locomotive struck. Mrs. Carey either was standing on the running board or was on the ground but in any event was not clear of the machine.

The impact of the collision threw the mother and her youngest son, Carl, to the left side of the tracks about 15 feet from the point where the car had stood. George was tossed out of the car to the same side of the tracks and lay about 50 feet from the point of the collision.

The car either slid along the rails or was carried on the front of the locomotive to the point where the train came to a stop.

Shouted Warning

Although Mr. Carey and several other men were nearby, none saw the crash. Carey said he heard the train whistle blowing "way up the track" as his wife drove off. He shouted a warning to her to watch out for the train but she was too far away to hear his voice.

It was only by chance that the Carey car did not contain another passenger Monday morning for Mrs. Carey had stopped at the home of Mr. and Mrs. B. E. Benner, at the crossing, to take John David Benner, 12, along to meet the school bus but John had made arrangements with his father to ride with him to meet the bus when Mr. Benner drove that way on an errand.

Mr. Carey is employed by Mr. Benner and lives in a house close to the Benner home. Mrs. Benner said today that usually the Carey and Benner children walk to school together but because it was foggy and rainy this morning, Mrs. Carey had decided to take the children in the car.

Probes Accident

Detective Milton R. Tipton went to the scene to investigate the accident for the Western Maryland railroad. He reported that the name of the engineer on the work train was Mr. Miner while the conductor was named Hoover.

After giving their names to the detective the train crew proceeded eastward and went through here to a destination that was not made known. The train had come out of Hagerstown.

Dr. Ira Henderson, Fairfield, was called to the scene of the accident and later the Adams county ambulance reached the crossing and brought the three injured persons to the hospital here.

For the last six years Mr. Marks taught science in the Barrett township high school at Cresco, Pa. He graduated from Gettysburg college in the class of 1932.

Mr. Marks and his wife and 11-year-old son will move to Royersford.

Arendtville High And Franklin Township Cagers Defeat Alumni Teams

APPLE PICKERS DEFEAT ALUMNI IN BOTH GAMES

Coach Charles Smith's Arendtville high dribblers snared a pair of victories Tuesday evening by defeating the alumni boys and girls. The varsity boys' team put on a fast finish to score a 44-30 victory after trailing 20-19 at half time. Bob Allison paced the victors with 16 points. The apple-pickers proved their efficiency from the foul line by looping eight of 10 charity throws.

In the preliminary game the alumnae sextet weakened in the last period after leading for three quarters and lost out to the varsity 28-23.

Pacing the winners was Miller with 19 tallies while R. Kane and Dively each looped 10 for the alumnae.

Arendtville's next game will be played January 8 with Delone Catholic at McSherrytown.

BARRETT WILL GET 4TH TRIAL IN BIG LEAGUES

Philadelphia (AP)—Dick Oliver Barrett, who is the former Philadelphia sandlot pitcher who has been trying for 17 years to convince big league managers that they need his strong right arm, comes back for his fourth trial in the majors next spring, and if figures mean anything, it's hard to see how he can miss this time.

Drafted by the Chicago Cubs on the advice of Manager Jimmy Wilson, Barrett, now 36, brings with him a record of 175 victories in the regular season and 10 in the playoffs for the Seattle club of the Pacific Coast league in the last eight years. Last year he won 27 and lost 13, with an earned run average of 1.72.

First Chance in 1933
Connie Mack gave Barrett his first chance at the big time in 1933, under the name of Dick Oliver. The big pitcher, known as "Kewpie" to his friends, was a fugitive from the St. Louis Cardinals at the time, and was using his middle name as a last name to avoid trouble while pitching with a Philadelphia semi-pro outfit.

His record with the semi-pros was somewhat amazing. Starting with an 11-inning, 5 to 4 victory, broken up by a home run by Dom Dalesandro, of Reading, who will be his teammate with the Cubs, Barrett hurled 25 games in 30 days and won 21 of them.

As Oliver, he won four games and lost four with the A's, but Mack cut him loose at the end of the season when he demanded more pay. The Boston Braves picked him up the next year and he went back to his real name, but he won only one game and lost three for Boston and drifted back to the minors again.

Cincinnati drafted him from Seattle in 1936, but sent him back the following spring, and since then other big league clubs have shied away from him until the Cubs took a look at his subsequent record and couldn't resist.

Caused Manager to Lose Job
Barrett was so good that he caused one Seattle manager to lose his job. In 1937 he had won 18 games and needed two more victories to win a \$250 bonus when the last day of the season rolled around with a double-header scheduled.

Johnny Bassler, the manager, put Barrett in for the opener, which he won, and then announced he also would pitch the second game. Between games the club owner told Bassler that if Barrett won the second game he would be looking for a job. Barrett did, and Bassler was out.

Dick missed a place in baseball's Hall of Fame when a slow roller to the shortstop prevented him from pitching a no-hit, no-run game against San Francisco last season.

BAUGH FAILS TO APPEAR IN BENEFIT GAME

By TED MEIER
Philadelphia, Dec. 28 (AP)—The failure of Sammy Baugh, star of the Champion Washington Redskins, to appear for yesterday's Pro Bowl football classic at Shibe park caused a furore that overshadowed the National League All-Stars 17 to 14 victory over the league champions.

Commissioner Elmer Layden ordered an investigation to bring out the "full facts." Another league official explained: "From all we know Baugh might have had a legitimate excuse for not showing up. But so far we can find no legitimate reason for his not notifying us that he could not or was not coming."

Baugh's Excuse
Baugh declared at his Rotan, Texas, ranch home that "I tried my best to make the game. They were supposed to have a car ready for me in Sweetwater (about 30 miles from Rotan) so I could catch a plane out of Dallas about 11:50 p. m. Saturday night. The car was not there."

The announcement Baugh would not play was made late Saturday night. Many in the crowd of 18,671 knew nothing about it when they appeared at the park.

All proceeds of the game, above minimum expenses, were turned over to the United Seamen's service. The players were not paid and many of Baugh's Washington teammates were reported "sore" at his failure to appear.

The game itself gave the Chicago Bears some measure of revenge for losing the league title to the Redskins two weeks ago. Lee Artow, Bear tackle, provided the winning three points by kicking a 43-yard field goal on the second play of the last quarter. Artow's mighty boot climaxed a furious six minute period in which 24 of the 31 points were scored.

97-Yard Run
The Redskins took the lead in the first quarter on Ki Aldrich's 30-yard punt through for E.T.A.O.I. 30-yard punt return for a touchdown. A 97-yard run by Pittsburgh's Bill Dudley after he intercepted a pass, tied the score in the third quarter. The All-Stars went ahead on John Pett's lunge from the two to cap a 51-yard advance, but the Redskins promptly tied it on a 15-yard aerial, Roy Zimmerman to Bob Seymour.

In the last 30 seconds Bob Master-son's field goal attempt from the 27 yard line. It was the first victory for the All-Stars since the Pro Bowl series began in 1938.

The gross gate was announced as \$75,000. In addition \$90,170 in war bonds was sold between the halves.

3 INJURED IN AUTO ACCIDENT

Three persons were injured, none seriously, when an auto operated by Ralph E. Smeach, 25, Hanover R. 2, rolled over several times after a collision with a car driven by J. W. Smeach received bruises and lacerations while Mrs. Sadie P. Miller, 59, Hanover R. 2, and Geraldine Wentz, 14, Westminster R. 3, also escaped with cuts and bruises. All were treated at the office of Dr. Nevin Sites, Hanover.

The Smeach car was nearly demolished in the accident with damage being estimated at about \$450. There was only slight damage to the other machine.

Declares Colleges And High Schools Can Teach Men Will To Win Spirit

By HUGH FULLERTON, JR.
New York, Dec. 31 (AP)—Since the Army and Navy can't instill an "all out to win" attitude in a man who doesn't have it during the 25 or 30 weeks of training a soldier ordinarily gets, the high schools and colleges must take the preliminary steps by means of competitive athletics.

That, in brief, is the opinion expressed by Col. James E. Pixlee, former athletic director and assistant to the president at George Washington university, at Wednesday's meeting of the National Collegiate Athletic association. Pixlee has represented the Army Air Force on committees drawing up a physical education program for schools and colleges under the auspices of the United States Office of Education. He outlined these programs during the discussion of the NCAA resolution urging that the soldiers and sailors who soon will be in training at some 200 colleges should be allowed to take part along with ordinary undergraduates in intercollegiate athletics.

The Army Air Force requires one hour a day of athletic and physical training activities, Pixlee added, and in advanced bases and combat areas this is almost entirely games and competitive activities. That's what fliers, who generally lead a sedentary life, need to preserve their stamina, agility and the toughness they must have to get back if they're shot down.

Cardinals Smash Yanks As Baseball Powerhouse

By DILLON GRAHAM
AP Sports Editor
New York—This was the year a speedy, sharp-hitting gang of St. Louis Cardinals did the job of breaking up the Yankees.

The New Yorkers were, as usual, king of the walk in their own league but in the world series, the Cardinals turned loose such a fast, crippling attack that the Yankees, at the finish, beaten four games to one, were all but stumbling around like dazed sandlotters.

This triumph came almost as an anti-climax to the Cardinals' great stretch drive to slice away a 10-game Brooklyn lead and win the National league pennant in a stirring duel that lasted right down to the last day. Far behind the Brooklyn Dodgers, who in early August appeared to have the flag all but wrapped up, Billy Southworth's swift youngsters won 47 out of their last 57 games to overhaul the Flatbush Fusiliers and grab the bunting in an almost photo finish.

Trailing by two games as they came into Brooklyn, September 10, the Cards walloped the Dodgers twice to gain a tie and then took the lead next day, and were never headed, although the aroused Brooklyn lads put up a stubborn last-ditch battle to the end.

The Yanks, who made a runaway of their loop race, and clinched their sixth pennant in seven years on September 14, were series' favorites and it looked like another Yankee sweep in the first game as Red Ruffing set a new series' record by holding St. Louis hitless for seven and two-thirds innings. However, there should have been a sign of what was to come in the Cardinals' last inning uprising that drove Old Red from the mound before New York won 7-4.

From there on out, it was all St. Louis with the Cardinals dazzling the Yankees with their speed to win four straight games. Rookie Johnny Beazley outpitched the second game on Rookie Stan Musial's late single. Lefty Ernie White shut out the New Yorkers 2-0 in the third game, the Cards put on a late batting spurge to take the next 9-6 and Beazley came back to win his second game in the finale, which was decided by a ninth-inning home run by another rookie, Third Baseman Whitey Kurowski.

Marvelous catches by Terry Moore, great throws by Moore and Country Slaughter, blinding speed by the base runners, and timely hitting, combined by the usually calm and confident Yanks, such as Bill Dickey's wild throw over second base and the trapping of Joe Gordon off second in the last game, Gordon, top Yankee batter, couldn't buy a hit until late in the series.

Williams Wins Triple
Ted Williams was the standout batter of the majors, winning the American league hitting triple and pacing the Boston Red Sox into second place, ahead of the surprisingly strong St. Louis Browns. He won the batting crown with a .356 average, knocked 36 homers and batted in 137 runs. However, the unpredictable, temperamental beanpole got into trouble—he was benched for loafing in July and fined \$250. Boston had another young star in Rookie Shortstop Johnny Pesky, who led the majors in hits, 205.

Bulky Ernie Lombardi of the Braves won the senior circuit batting championship with a .331 average while Mel Ott, who did a fine job of managing the Giants into third place, led in homers with 30 and Johnny Mize of the Giants knocked in 110 runs. Bonham of the Yankees won 21 games as did Beazley while Mort Cooper of the Cards, who couldn't win either of his series' starts, topped the National pitchers with 22 triumphs.

Cooper and Gordon won the most valuable player awards. Home runs by Lou Boudreau, serving his first year as Cleveland manager, and Rudy York of Detroit gave the Americans a 3-1 triumph in the All-Star game and the Americans then shut out a service team managed by Mickey Cochrane 5-0. Rogers Hornsby was named to the Hall of Fame.

Million for Effort
With benefit games during the season and a large slice of world series proceeds, baseball contributed nearly a million dollars to war relief funds. Because of the war-time dimouts in the East, night games were replaced by twilight contests. An epidemic of bean ball pitches caused the National league to threaten a \$200 fine for managers for every occurrence. Military calls and transportation problems forced 15 of the 41 minor leagues to fold up. Baseball attendance was off some eight per cent.

General Manager Larry MacPhail of Brooklyn resigned to enter the Army and was replaced by Branch Rickey from the Cardinals. Detroit released Manager Del Baker and hired Steve O'Neill. Bucky Harris of Washington resigned and was replaced by Ossie Bluege. Bill Terry quit as farm manager of the Giants.

CONTROL BOARD OF PIAA GIVEN NEW MEASURES

Harrisburg, Pa., (AP) — The Pennsylvania Interscholastic Athletic Association's Board of Control will operate for the duration of the war with emergency powers to suspend PIAA by-laws and constitution as the need arises.

This authority was granted by member schools Tuesday. The schools also amended the association's by-laws so that Sunday games are outlawed. However a move to repeal the eight semester rule was defeated in another referendum vote.

To meet wartime problems, Edmund Wicht, executive secretary, was given power to approve PIAA officials without examination while the Board of Control reduced the age qualification from 21 to 18 years.

Re-Elect Officers
The association renamed R. B. Stapleton, Tamaqua high school principal, president and also re-elected C. L. Walsh, Pittsburgh, vice president; W. E. Griffith, Somerset, treasurer, and Dr. J. E. Nancarrow, Williamsport, chairman of the board of directors of the PIAA protection fund.

Board of Control members for 1943 are:
Dr. R. B. Taylor, Norristown, District 1; R. F. McNichols, Scranton, District 2; James R. Peifer, Harrisburg, District 3; Dr. Nancarrow, District 4; Griffith, District 5; Ira C. Gross, Southmont, District 6; Dr. R. E. Boyles, Washington, District 7; Walsh, District 8; J. E. Biery, Brookville, District 9; H. D. Leberman, Erie, District 10; Stapleton, District 11; C. E. Jewell, Tamaqua, District 12; and G. E. Ulfshar, Nesquehoning, member-at-large. Dr. J. Wynn Fredericks, Harrisburg, was named advisor.

The war emergency powers' amendment, adopted by a vote of 318 to 62 gave the Board of Control authority to "suspend or remove suspension of any part of the constitution and by-laws of the PIAA as applicable to member schools, and contestants thereof, where, in the judgment of the board, such suspension or removal of suspension is necessary or desirable because of circumstances arising out of the war or any direct or indirect result of changes in law, rules or regulations affecting member schools."

Another amendment to the constitution adopted by a referendum vote of 243 to 128, designated the executive secretary of the Pennsylvania State School Directors association as an advisor of the PIAA Board of Control, subject to approval of the state director's convention here in February.

The member schools decided to retain the eighth semester rule by defeating 214 to 112, a proposed amendment that would have provided that "no pupil shall represent his school in athletics if he has failed to obtain promotion from the highest grade of the school and is repeating that grade."

The provision prohibiting Sunday sports by member schools was written into the PIAA constitution by a vote of 331 to 42.

The board received a report that of an enrollment of 959 member schools last year, 854 have paid their dues for this year, 45 have given notice of dropping from the association because of discontinuance of athletic programs and 60 others have not yet informed the association of their decision.

Three retiring members of the Board of Control were given a vote of thanks for their PIAA work. They are Frank G. Roth, of Harrisburg; O. W. Johnson, of New Kensington and E. Collins Cupp, of Milton.

Warns Boards Of "Victory Tax"

J. Floyd Slaybaugh, county superintendent of schools, has sent a letter to all school directors and teachers in the county calling attention to provisions of the income and "victory" tax laws that affect school employes.

Authorizing the school boards to make deductions on the January salaries of all teachers, he suggests that "in order not to penalize any teachers by making them pay a Victory Tax on their December salaries, school boards should meet during December to pay their teachers their December salaries."

The school boards are instructed to send to the collector of Internal Revenue at Philadelphia for the necessary tax report forms. They are authorized to hold deductions from January, February and March salaries until March 31 when the first quarterly payment is to be made.

207 MASONS AT ANNUAL DINNER HEAR PLEA FOR FAITH IN GOD

"Masons demonstrate their faith in God by their ritual, constructed on the Bible story of King Solomon's leadership of the Jewish people in building a temple for the worship of Jehovah.

"The American commonwealth has as its basis a fine faith in Almighty God.

"Columbus demonstrated his faith in God when he discovered the new world. His first act when he stepped on the new land was to fall on his knees, give thanks for deliverance and dedicate the new land to God.

"Balboa demonstrated his faith by dedicating all the shores of the newly discovered Pacific to God.

"The Cavaliers' who founded Jamestown demonstrated their faith, also. One of the first buildings they erected was a church, the ruins of which still stand.

"The settlers of Pennsylvania were pious Germans and Scotch-Irish and they, too, demonstrated their faith in God. The devout Catholics who settled in Maryland and the devout Dutch who settled in New York, and the Huguenots who settled in North Carolina, all demonstrated equal faith in God."

These declarations were made by the Rev. Dr. Ira Sankey Ernst, of Washington, former United Brethren pastor of the Biglerville, Centre Mills, Cashtown, Mt. Carmel and Mt. Hope charge, in an address before the annual St. John's Day banquet of Good Samaritan Lodge, of Gettysburg, Monday evening at the Hotel Gettysburg.

"In God We Trust"

The theme of his address was "In God We Trust" and he cited a number of instances to support the cause that "God ranks Supreme and that in God lies the salvation of mankind."

"A minister is a person who serves his country by serving his God," said the Rev. Dr. Ernst. "I like this interpretation because it suggests the very essence of Americanism, a proper relationship between God and country."

"The essence of Americanism is not revolution, but the recognition of the sacredness of human personality, the recognition of inherent and inalienable rights which every man possesses, independently of the state. That is why, when our country began, our founding fathers were most anxious to find some basis for human rights, some foundation for human liberties, some guarantee of human personality, which would be above the encroachment of tyranny and abuse."

Turned to the Master

"But where find the basis for the right of man to be his own master, captain of his own soul? They turned to England and to France and rejected both prospects and theories."

"The answer the founding fathers gave was the right one. They sought the foundation of man's rights and liberties in something so sacred, so inalienable that no state, no parliament, no dictator, no human power could ever take them away; and so they rooted them in God. Hence, our Declaration of Independence reads 'all men . . . are endowed by their creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness.'"

"If human dignity and liberty come from God then it follows that loss of faith in Him means loss of those liberties which we derive from Him."

"If we are to keep our freedom we must keep our faith."

DEMANDS FOR LUMBER GROW

The United States Department of Agriculture War Board called attention today to the heavy demands for lumber and other forest products in Adams county that the war has brought about.

"This demand is increasing the pressure on farmers to sell their timber," a War Board spokesman said today. "Too often the farmers' timber is being purchased on a low estimate of quantity and quality for a lump sum which is far below its real value. Furthermore, in a majority of cases, their woodlands are then cut out destructively and without conscious regard for future productivity."

The War Board urged woodland owners in the county, who have mature or "ripe" timber to harvest their trees so as to make the greatest contribution to the war needs and suggested further that before selling or cutting timber the owners obtain advice from the Adams county farm forestry office or from the state extension forester.

Here And There

FORWARD IN 1943

At the stroke of midnight tonight 1942 passes into history and we enter the new year of 1943.

The road ahead is one of trials and tribulations. It is rough and tough. It will be filled with disappointments, hardships, sacrifices. The going will not be easy. It will be the hardest we have traveled in many years. The fate of our homes, our children, our state, our nation and our lives may be determined during the next twelve months.

Never before in all our history has our nation faced such a perilous task. Yorktown, Ticonderoga, Valley Forge, Gettysburg, Chateau-Thierry, Verdun are minuscule compared with the obstacle of Nazism, Fascism and Nipponism we face now.

On wide fronts the world over American fighting men are facing the most treacherous and dangerous enemy we have ever combated. Never before has such a low price been placed on human lives. Defenseless women and children, the aged and infirm are mere pawns in the bloodless fingers of merciless foes.

The year will bring the war closer to home. Casualty lists more than likely will include our own sons, brothers and fathers. We will encounter reverses that will test the strongest heart. The welter of human sacrifice will be staggering.

1943 will require the heart and courage of a titan.

But 1943 will also see the greatest demonstration of intestinal fortitude, courage, determination and the will to win the world has ever known. The eyes of smaller, defenseless nations will be upon America. They will thrill to the courage and fighting qualities of those Yankees who have come to free them. They will marvel at the productive ability of American war plants. They will find renewed hope in the swarms of planes, tanks, guns, ships and men coming from the U. S. A. Their only hope for freedom from the oppression of their Axis invaders lies with Uncle Sam.

1943 will also find the folks on the home front doing a bang-up job. Their morale will be higher

than ever despite the reverses that are bound to come. The men and women at the front will know that those at home are doing their very best and that will be considerable, far more than has ever been done before, to keep the wheels of production rolling, the war materials moving up to the front. They will know that other "home front" activities will be going forward at top speed because all America is united in the common objective to win an early victory.

Let us resolve that we will keep up our spirits . . . that we will maintain a stout heart, bear ungrudgingly whatever sacrifice we are called upon to make . . . that we will devote our efforts, energies and will to help those at the front . . . that we will be loyal Americans all the time . . . that we will accept our lot with-

TWO RED CROSS POSTS FILLED

The executive board of the Adams county chapter of the Red Cross at a special meeting Wednesday evening in the chapter office at the court house ratified the appointments of two important committee chairmen—Radford H. Lippy as chairman of the blood donor committee and Paul Singmaster as disaster relief chairman.

Mr. Lippy will be in charge of making all local arrangements for the monthly visits of a blood donor mobile unit of the Red Cross which will come here for the first time in January. A pint of blood will be taken from adults between the ages of 21 and 60 who volunteer to give blood for the use of the Army and Navy. Canteen and nurses' aide groups will be represented on Mr. Lippy's committee.

The new disaster relief chairman will announce his sub-chairmen in the near future and will conduct his work in close cooperation with the civilian defense officials of the county. Mr. Singmaster has had previous experience in disaster relief work in Canada.

The executive group was told that plans soon can be announced for the new war fund appeal to be launched in March. Some supplies already are ordered and early announcement of the county's quota is expected.

Approval was given to the chapter budget for 1943 as previously approved by the national Red Cross and the War department. It provides for expenditures of \$5,420 or about \$800 more than the 1942 budget. The increase occurs chiefly as a result of the increased volume and cost of home service work in connection with service men.

Committee reports were received with Mrs. E. S. Lewars, chapter chairman, presiding. Others present were Mrs. Donald P. McPherson, Miss Anna Reck, Mrs. Milton Remmel, Radford Lippy, Harry L. Snyder, Robert D. Fidler, Dr. Harvey D. Hoover, Miss Reba Adams, Mrs. Monroe Dellinger, Mrs. George Boehner and Mrs. John Mumper.

Western Maryland

one month the revenue totaled only \$24.60.

But, with the advent of the automobile passenger patronage and revenue declined until the company reached the point where its daily loss from this service was too great to warrant continuance. Then, too, the Office of Defense Transportation has ordered curtailment and abandonment of service where revenue no longer justifies its continuance . . . and the shortage of equipment for troop movements was another reason for requesting permission to discontinue service.

So the Western Maryland closed its passenger service. The final run was dignified by the presence of high railway officials. And the last train also carried the General Manager's private car.

The crew of the last train included:

George W. Kelley, engineer; P. R. Arnold, fireman; George W. Hardesty, conductor; T. T. Lankford, brakeman; and E. L. Cook, baggageman.

29 FAMILIES IN 3 COUNTIES WIN FARM AWARDS

Clarence A. Myers, Farm Security Administration supervisor, announced Saturday that 29 farm families in Adams, York and Dauphin counties have earned merit awards from the government for the patriotic production of foods needed in the war effort.

"The merit award," explained Mr. Myers, "is the small farmer's 'E for excellence.' It means that he has met and surpassed goals set after Pearl Harbor—met them by careful and ambitious planning and by working as he has never worked before. Original goals set last fall were difficult. Post-Pearl Harbor goals looked almost impossible at the time—but Merit Award winners made them."

"The nation may well be grateful to these small farmers for the effort they have put forth. With food shortages threatening, with railroads too burdened by men and munitions to carry normal food supplies to the East, with every phase of the war effort depending essentially upon increases in food for industrial workers, soldiers and civilian populations — our small farmers have delivered the goods."

Increases Important

FSA borrowers in these counties increased their production of milk, chickens, helters, pigs, feed, vegetables, and fruits.

"With familiar foods fast disappearing from our grocery shelves, the importance of these increases is dramatic," said Myers. "Production by small farmers is gratifying to Farm Security. It justifies the years we have spent improving the land, lending supervision to farm and home management, improving rural health, organizing cooperatives, loaning money, and adjusting debts."

"Not only have our small farmers rallied to the aid of the war effort with great increases in food production, but they are rapidly repaying the government the money loaned."

The supervisor said that Farm Security families not only produced more food for national consumption but relieved a severe strain on processing families by home canning.

DEMANDS FOR LUMBER GROW

The United States Department of Agriculture War Board called attention today to the heavy demands for lumber and other forest products in Adams county that the war has brought about.

"This demand is increasing the pressure on farmers to sell their timber," a War Board spokesman said today. "Too often the farmers' timber is being purchased on a low estimate of quantity and quality for a lump sum which is far below its real value. Furthermore, in a majority of cases, their woodlands are then cut out destructively and without conscious regard for future productivity."

The War Board urged woodland owners in the county, who have mature or "ripe" timber to harvest their trees so as to make the greatest contribution to the war needs and suggested further that before selling or cutting timber the owners obtain advice from the Adams county farm forestry office or from the state extension forester.

Here And There

FORWARD IN 1943

At the stroke of midnight tonight 1942 passes into history and we enter the new year of 1943.

The road ahead is one of trials and tribulations. It is rough and tough. It will be filled with disappointments, hardships, sacrifices. The going will not be easy. It will be the hardest we have traveled in many years.

The fate of our homes, our children, our state, our nation and our lives may be determined during the next twelve months.

Never before in all our history has our nation faced such a perilous task. Yorktown, Teonideroga, Valley Forge, Gettysburg, Chateau-Thierry, Verdun are minuscule compared with the obstacle of Nazism, Fascism and Nipponism we face now.

On wide fronts the world over American fighting men are facing the most treacherous and dangerous enemy we have ever combated. Never before has such a low price been placed on human lives. Defenseless women and children, the aged and infirm are more pawns in the bloodless fingers of merciless foes.

The year will bring the war closer to home. Casualty lists more than likely will include our own sons, brothers and fathers. We will encounter reverses that will test the strongest heart. The welter of human sacrifice will be staggering.

1943 will require the heart and courage of a titan.

But 1943 will also see the greatest demonstration of intestinal fortitude, courage, determination and the will to win the world has ever known. The eyes of smaller, defenseless nations will be upon America. They will thrill to the courage and fighting qualities of those Yankees who have come to free them. They will marvel at the productive ability of American war plants. They will find renewed hope in the swarms of planes, tanks, guns, ships and men coming from the U. S. A. Their only hope for freedom from the oppression of their Axis invaders lies with Uncle Sam.

1943 will also find the folks on the home front doing a bang-up job. Their morale will be higher

than ever despite the reverses that are bound to come. The men and women at the front will know that those at home are doing their very best and that will be considerable, far more than has ever been done before, to keep the wheels of production rolling, the war materials moving up to the front. They will know that other "home front" activities will be going forward at top speed because all America is united in the common objective to win an early victory.

Let us resolve that we will keep up our spirits . . . that we will maintain a stout heart, bear ungrudgingly whatever sacrifice we are called upon to make . . . that we will devote our efforts, energies and will to help those at the front . . . that we will be loyal Americans all the time . . . that we will accept our lot with-

TWO RED CROSS POSTS FILLED

The executive board of the Adams county chapter of the Red Cross at a special meeting Wednesday evening in the chapter office at the court house ratified the appointments of two important committee chairmen—Radford H. Lippy as chairman of the blood donor committee and Paul Singmaster as disaster relief chairman.

Mr. Lippy will be in charge of making all local arrangements for the monthly visits of a blood donor mobile unit of the Red Cross which will come here for the first time in January. A pint of blood will be taken from adults between the ages of 21 and 60 who volunteer to give blood for the use of the Army and Navy. Canteen and nurses' aide groups will be represented on Mr. Lippy's committee.

The new disaster relief chairman will announce his sub-chairmen in the near future and will conduct his work in close cooperation with the civilian defense officials of the county. Mr. Singmaster has had previous experience in disaster relief work in Canada.

The executive group was told that plans soon can be announced for the new war fund appeal to be launched in March. Some supplies already are ordered and early announcement of the county's quota is expected.

Approval was given to the chapter budget for 1943 as previously approved by the national Red Cross and the War department. It provides for expenditures of \$5,420 or about \$800 more than the 1942 budget. The increase occurs chiefly as a result of the increased volume and cost of home service work in connection with service men.

Committee reports were received with Mrs. E. S. Lewars, chapter chairman, presiding. Others present were Mrs. Donald P. McPherson, Miss Anna Reck, Mrs. Milton Remmel, Radford Lippy, Harry L. Snyder, Robert D. Fidler, Dr. Harvey D. Hoover, Miss Reba Adams, Mrs. Monroe Dellinger, Mrs. George Boehner and Mrs. John Mumper.

Western Maryland

one month the revenue totaled only \$24.60.

But, with the advent of the automobile passenger patronage and revenue declined until the company reached the point where its daily loss from this service was too great to warrant continuance. Then, too, the Office of Defense Transportation has ordered curtailment and abandonment of service where revenue no longer justifies its continuance . . . and the shortage of equipment for troop movements was another reason for requesting permission to discontinue service.

So the Western Maryland closed its passenger service. The final run was dignified by the presence of high railway officials. And the last train also carried the General Manager's private car.

The crew of the last train included: George W. Kelley, engineer; P. Arnold, fireman; George W. Hardesty, conductor; T. T. Langford, brakeman, and E. L. Cook, baggage man.

Just Folks
By Edgar A. Guest

THE DAY AFTER

A grandpa should have better sense," their grandma says to me.

"Than try to keep the running pace of little boys of three.

And very, very silly is the doting graybeard, who

Believes that he can step along with little girls of two."

No word have I to answer as their grandma, like a sage,

Delivers sharp discourses on man's disregard of age.

With every groan I utter over muscles sore and lame,

She says to me: "Remember, you have just yourself to blame."

Yes, it was a happy Christmas, for in spite of all remorse,

It is something for a grandpa to have been a cowboy's horse;

And it's something for a grandpa to have galloped round about

From early dawn to twilight and not wholly petered out!

Now I'm full of pains and twinges and I ache from head to toe.

And their grandma keeps insisting so much better I should know,

But just once a year it happens, so I'll romp the while I can,

And their grandma's lengthy lectures I will suffer like a man.

THE LARGER SACRIFICE

Mother, you are very strong; very strong and very brave.

When shall come the victory you may boast: "A son I gave!"

But there will be others here, silent to life's distant end.

Who will envy you your pride, for they have no son to send.

Do you miss him now away? Is his room still tidy kept?

Think of all the empty rooms where no boy has ever slept?

Are you heavy-hearted now? There are some you surely know

Who would proudly share your grief, could they have a boy to go.

Mother, these are anxious times; day and nights of doubt and dread.

But the ones who calmly sleep would prefer your restless bed.

You are very frightened now, but a glory they must miss who have only coins to share.

RETURN TO DUTY

Time was, in happier days than these,

thought I'd earned a life of ease, boasted, like all other bums,

that I was done with household chores,

but winter's here, and back I go once more to shoveling the snow,

before the war, in gayer times, when Rockefeller passed out dimes

and millionaires were thick as fleas, toyed with many a new disease

and every ailment not too bad, made myself believe I had,

too weary and too proud I grew of my ordinary tasks to do.

The dishes I refused to do, but grass at eventide? Not I,

made the ultimatum flat "that I was done with work like that,

but now beside the sink I stand, to lend once more a helping hand,

"in done with all my fancied ills, or work's a better cure than pills,

once more, as forty years ago, "in back to shoveling off the snow.

DEATH OF 1942

On his death bed now he's lying, yes, the Old Year's surely dying,

quick the pulse and growing quicker;

scarce the weary eyelids flicker, done with all earth's care and sorrow,

he will not be here tomorrow, let's not say the parting grieves us

as for history he leaves us, now that life is almost ended,

such his record holds was splendid, for he brought us all together,

one, for every sort of weather, day by day he drew us closer;

lanker, merchant, plumber, grocer, teacher, lawyer—all our people

under Freedom's one great stepple, all as one to stand united

until every wrong is righted, now to death he goes contented,

leaving free men so cemented, "his his glory, his salvation:

"that he brought to God a nation! Close the door and draw the curtain—

peace with victory now is certain.

FLASHES OF LIFE

PERFECT RECORD

Shelton, Conn. (AP)—Friends of Miss Ethel Smith claim for her the National Sunday school attendance record.
Sunday's session at the Methodist church Sunday school completed 40 years of perfect attendance.

WHAT NEXT?

Raleigh, N. C. (AP)—Some of the guest of a hotel here must have been a bit startled when, upon entering the lobby, they saw a man milking a cow.
It was part of the program of the Farmers Cooperative Exchange, holding a meeting at the hotel.

JAVA JITTERS

Hidalgo, Tex. (AP)—Border patrolmen guarding the Rio Grande have another worry—coffee bootleggers and smugglers.
Three aliens were arrested and charged with smuggling 33 pounds of ground coffee across the river.

TOO MUCH HEAT

Salt Lake City, (AP)—Fire Chief Jack Clay says that the rationing board office evicted from the fire station.
He has no personal ill will toward the board, the chief explained; but:

"The public seems to think the fire department is running the ration board and is responsible for their not getting gas and sugar."

FAMILY AFFAIR

New York (AP)—Persons in an Army recruiting and induction center were startled when a captain, having sworn in a pretty WAAC recruit, planted a big kiss on her face.

The officer was Captain Joseph J. La Manna, the recruit Mrs. Edward Dissell, 24, dancer and swimmer who was understudy to Eleanor Holm at the World's Fair Aquadance.

Oh, yes—the new WAAC is Captain La Manna's daughter, Eleanor.

HUSKY

Denver (AP)—Prince, Jack Bernstein's German shepherd, should be tough enough for the Army.

A tavern watchdog for years, Prince was enlisted in the Army, but he didn't want to leave home. It took two men to get him to the train.

CRUSADERS

St. Joseph, Mo. (AP)—Then there's the NSDUSPHI.

Glenn E. Smith is national president of this fee-less new organization—the National Society to Discourage the Use of the Name Smith for Purposes of Hypothetical Illustration.

The slogan, addressed mostly to public speakers and authors: "When you think of Smith, say John Doe."

The members are all named Smith.

FAITHFUL

Arkansas City, Kas. (AP)—C Ward Bayles is beginning his 28th year of perfect Sunday School attendance.

Bayles, 39, once had trouble finding a Protestant church while touring in New York state, but he made it. And another time he waded Kansas snowdrifts to find only two persons at church—the preacher and himself.

STILL A MAN'S ARMY

Daytona Beach, Fla. (AP)—Recruits coming into the second WAAC training center here master with comparative ease many of their tasks but most of them come a cropper on a masculine item of their attire. "The hardest thing they have to learn is to tie a four-in-hand tie," explained First Lieut. Charles L. Sims, in charge of the processing department where the girls are outfitted AGI four-in-hand tie is a "must" on a WAAC uniform.

UNSCHEDULED DELIVERY

San Francisco (AP)—It was just like stealing Santa's sleigh and reindeer—Mallman Russ Barnecut delivered a Christmas package. When he returned to the street, his mail truck and its load of 100 undelivered packages were gone.

BIG DAY

Los Angeles (AP)—The date of December 7 means a lot to Princess Luana, Hawaiian dancer. On December 7, 1940, she married Lieut. M. H. Sauer. On December 7, 1941, he narrowly escaped death at Pearl Harbor. On December 7, 1942, she and her husband separated, she said in domestic relations court. She seeks a divorce.

NOT TOO MERRY

Chicago (AP)—The robber who took \$231 from Julius Prunt at the point of a gun tried to ease the blow a little, at least. "Merry Christmas," the gunman shouted as he fled.

ANOTHER INSTITUTION PASSES

Scranton, Pa. (AP)—Five local businessmen who have been lunching together in an office for years will have to bring their own coffee—or do without.

The quintet applied to the OPA for classification as institutional users of coffee, which would have permitted them to purchase beans for their luncheon beverage without affecting their individual ratings.

The OPA said no.

NO KIDDING!

Gallup, N. M. (AP)—Place a big rooster in a burlap bag and put it under the hood at night.
This procedure, ranchers told a neighboring Indian, would keep the frost off the motor and make the car easy to start in the morning. Well, it didn't, because there weren't any spark plug wires, or any fan belt by the time morning rolled around.

The Indian, they explained, didn't have a rooster. He substituted a goat.

TORTUROUS ESCAPE

Camden, N. J. (AP)—Police answering a burglar alarm from a downtown store found a trail of coins pointing the way an intruder had escaped with \$94.

They followed the trail, through a broken window into a shed, down a tunnel hurriedly scratched in the earth floor into an adjoining basement, through a door into another basement, and via a forced window to the street. There the trail disappeared.

OH, MR. SHERMAN!

Oklahoma City (AP)—Capt. Charles Nissen, with the Army in the south Pacific, may just stay there after the war's over.

He's swapped a native chief out of an island—with a package of cigars.

"That chief thought of everything," he wrote the folks. "I saw three native girls sunning themselves on the beach. There are coconut groves and crystal blue lagoons. It's one mile wide and two miles long."
The cigars, Nissen said, cost 11 cents.

Just Folks
By Edgar A. Guest

THE DAY AFTER

A grandpa should have better sense," their grandma says to me,

"Than try to keep the running pace of little boys of three, And very, very silly is the doing graybeard, who Believes that he can step along with little girls of two."

No word have I to answer as their grandma, like a sage, Delivers sharp discourses on man's disregard of age.

With every groan I utter over muscles sore and lame, She says to me: "Remember, you have just yourself to blame."

Yes, it was a happy Christmas, for in spite of all remorse, It is something for a grandpa to have been a cowboy's horse; And it's something for a grandpa to have galloped round about From early dawn to twilight and not wholly petered out!

Now I'm full of pains and twinges, And I ache from head to toe, And their grandma keeps insisting so much better I should know, But just once a year it happens so, I'll romp the while I can, And their grandma's lengthy lectures I will suffer like a man.

THE LARGER SACRIFICE
Mother, you are very strong; very strong and very brave. When shall come the victory you may boast: "A son I gave!" But there will be others here, silent to life's distant end.

Who will envy you your pride, for they have no son to send. Do you miss him now away? Is his room still tidy kept?

Think of all the empty rooms where no boy has ever slept? Are you heavy-hearted now? There are some you surely know. Who would proudly share your grief, could they have a boy to go.

Mother, these are anxious times; day and nights of doubt and dread, But the ones who calmly sleep would prefer your restless bed.

You are very frightened now, but the anguish that you bear is a glory they must miss who have only coins to share.

RETURN TO DUTY

Time was, in happier days than these, I thought I'd earned a life of ease. I boasted, like all other boys, That I was done with household chores.

But winter's here, and back I go Once more to shoveling the snow. Before the war, in gayer times, When Rockefeller passed out dimes and millionaires were thick as fleas, I toyed with many a new disease and every ailment not too bad. I made myself believe I had. I too weary and too proud I grew. I made my ordinary tasks to do. The dishes I refused to dry. I cut grass at evening? Not I. I made the ultimatum flat. That I was done with work like that. But now beside the sink I stand. To lend once more a helping hand. To do with all my fancied ills, For work's a better cure than pills. Once more, as forty years ago, I'm back to shoveling off the snow.

DEATH OF 1942

On his death bed now he's lying. Yes, the Old Year's surely dying. Quick the pulse and growing quicker; Scarce the weary eyelids flicker. Done with all earth's care and sorrow. He will not be here tomorrow. Let's not say the parting grieves us as for history he leaves us. For that life is almost ended. Such his record holds was splendid. For he brought us all together. One, for every sort of weather. Day by day he drew us closer: Banker, merchant, plumber, grocer, preacher, lawyer—all our people Under Freedom's one great steeple. All as one to stand united. Till every wrong is righted. Now to death he goes contented. Seeing free men so cemented. 'Tis his glory; his salvation: That he brought to God a nation! Close the door and draw the curtain: Peace with victory now is certain.

FLASHES OF LIFE

PERFECT RECORD
Shelton, Conn. (AP)—Friends of Miss Ethel Smith claim for her the National Sunday school attendance record.

Sunday's session at the Methodist church Sunday school completed 40 years of perfect attendance.

WHAT NEXT?
Raleigh, N. C. (AP)—Some of the guest of a hotel here must have been a bit startled when, upon entering the lobby, they saw a man milking a cow.

It was part of the program of the Farmers Cooperative Exchange, holding a meeting at the hotel.

JAVA JITTERS
Hidalgo, Tex. (AP)—Border patrolmen guarding the Rio Grande have another worry—coffee bootleggers and smugglers.

Three aliens were arrested and charged with smuggling 33 pounds of ground coffee across the river.

TOO MUCH HEAT
Salt Lake City, (AP)—Fire Chief Jack Clay wants the rationing board office evicted from the fire station.

He has no personal ill will toward the board, the chief explained but:

"The public seems to think the fire department is running the ration board and is responsible for their not getting gas and sugar."

FAMILY AFFAIR
New York (AP)—Persons in an Army recruiting and induction center were startled when a captain, having sworn in a pretty WAAC recruit, planted a big kiss on her face.

The officer was Captain Joseph J. La Manna, the recruit Mrs. Edward Dissell, 24, dancer and swimmer who was under study to Eleanor Holm at the World's Fair Aquadace.

Oh, yes—the new WAAC is Captain La Manna's daughter, Eleanor.

HUSKY
Denver (AP)—Prince, Jack Bernstein's German shepherd, should be tough enough for the Army.

A tavern watchdog for years, Prince was enlisted in the Army, but he didn't want to leave home. It took two men to get him to the train.

CRUSADERS
St. Joseph, Mo. (AP)—There's the NSDUNSPH.

Glenn E. Smith is national president of this fee-less new organization—the National Society to Discourage the Use of the Name Smith for Purposes of Hypothetical Illustration.

The slogan, addressed mostly to public speakers and authors: "When you think of Smith, say John Doe."

The members are all named Smith.

FAITHFUL
Arkansas City, Kas. (AP)—C. Ward Bayles is beginning his 28th year of perfect Sunday School attendance.

Bayles, 39, once had trouble finding a Protestant church while touring in New York state, but he made it. And another time he waded Kansas snowdrifts to find only two persons at church—the preacher and himself.

STILL A MAN'S ARMY
Daytona Beach, Fla. (AP)—Recruits coming into the second WAAC training center here master with comparative ease many of their tasks but most of them come a cropper on a masculine item of their attire. "The hardest thing they have to learn is to tie a four-in-hand tie," explained First Lieut. Charles L. Sims, in charge of the processing department where the girls are outfitted. AGI four-in-hand tie is a "must" on a WAAC uniform.

UNSCCHEDULED DELIVERY
San Francisco (AP)—It was just like stealing Santa's sleigh and reindeer—Mailman Russ Barneout delivered a Christmas package.

When he returned to the street, his mail truck and its load of 100 undelivered packages were gone.

BIG DAY
Los Angeles (AP)—The date of December 7 means a lot to Princess Lorna, Hawaiian dancer. On December 7, 1940, she married Lieut. M. H. Sauer. On December 7, 1941, he narrowly escaped death at Pearl Harbor. On December 7, 1942, she and her husband separated, she said in domestic relations court. She seeks a divorce.

NOT TOO MERRY
Chicago (AP)—The robber who took \$231 from Julius Prunt at the point of a gun tried to ease the blow a little, at least "Merry Christmas," the gunman shouted as he fled.

ANOTHER INSTITUTION PASSES
Scranton, Pa. (AP)—Five local businessmen who have been lunching together in an office for years will have to bring their own coffee—or do without.

The quonset applied to the OPA for classification as institutional users of coffee, which would have permitted them to purchase beans for their luncheon beverage without affecting their individual rationations.

The OPA said no.
